5. Provision for enquiry and information, Human assistance, reader, scribe, soft copies of reading materials, screen reading, etc.

PC provided with NVDA voice software. It is a speaking software which reads the icons & alphabet which are displayed on the screen. With the help of the software we can make all the E-books audible whichever are available on the Web site. At present in State Universities & Central Universities people with special abilities are using this reading software for research. By Gautham.
