ATTAINMENT OF COs AND POs

1. Computation of CO attainment

The students' skill development and performance are measured and evaluated across the course outcomes periodically by the course teachers and the end semester examination. Assessment has two components, namely, a formative assessment through Continuous Internal Assessment (CIA) and a summative assessment through an Semester End Examination (SEE). CIA comprises of internal examination, class activity, assignment, and Student seminar. SEE is the written examination where the conceptual knowledge, analytical and problem solving skills are assessed to measure the CO attainment.

The attainment of Course outcomes are evaluated by systemic and structured mechanisms which totally focus on measurement of student performance through outcomes. The assessment of these outcomes is done by evaluation process. All the course outcomes of the institution are evaluated by means of Indirect and Final assessment. All the courses are evaluated using 3 levels of Assessment- DA- Direct assessment (10 marks), IA-Indirect Assessment (10 marks), FA-Final Assessment (80 marks). The Direct assessment is done by evaluating the Assignments and Student Seminars. The indirect assessment is done through evaluation of internal exams and final assessment by evaluating the semester end exams. The overall attainment of COs is based on the marks set as target, for final attainment.

The predefined target for direct assessment is more than 6 marks and indirect assessment is more than 8 marks and final assessment is more than 30 marks. The attainment level is considered as 1, if the predefined target level is satisfied. Indirect assessment is evaluated by internal exams (20 Marks). In each semester two internal examinations are conducted in the college. Final assessment is through evaluating Semester End examinations (80 Marks). The preset target for Indirect assessment is more than 8 marks and final assessment is more than 32 marks.

2. Computation of PO Attainment –

When the student attained the course outcomes in all the courses he opted for during the Specified period, it is treated that he has attained the outcomes of the Programme into which he was admitted
