Title of the Program:**TASK conducted awareness programme on HireMee App****Description about the Program:**

As a part of TASK Curriculum TSKC conducted awareness programme on HireMee Mobile Application. TSKC Coordinator and principal addressed the students how to installed and importance of the app. All final year students are participated and registered the app.

1	Dates of Assessment	18.02.2021
2	Mode Of Assessment	Computers (CBS),Mobiles
3	Complete College Name (not initials)	SR&BGNR Government Degree College, Khammam
4	Private/Government	Government
5	University affiliated to	Kakatiya University
6	Complete Address	SR&BGNR Government Degree College, Khammam,Yellandu "x" Road.
7	City	Khammam
8	State	Telangana
9	Courses to be tested	All Groups Final Years (BA,B.Com,B.Sc)
10	Batch Year	2018-2021
11	Test Start Time	11 A.M
12	TPO Name	N.Srinivasarao (TSKC Coordinator)
13	TPO Contact Number	9440470587
14	TPO Email ID	nsrphy@gmail.com
15	College Web Site	http://gdcts.cgg.gov.in/khammam.edu
16	Lab Admin Contact Number	E.Yaladri (TSKC Mentor)
17	Lab Admin Email ID	Yaladri.edunuri@gmail.com
18	Number of students expected	Totally Final Year 400 Expected may be 250
19	Number of Computers available	With internet Connection 20 systems
20	CSR/GOLD	
21	Single/ Pooled	Single
22	If pooled, participating Colleges	-

Fundamental of Accounting

TASK

Accounting

Recording of financial transactions. Summarise, analyse, and report the financial activity of a company

Books

Maintaining and systematic record of all transactions and analysing the financial position of a business

Financial Accounting

Recording of business transactions in the books of accounts can be known financial position on a particular date.

Cost Accounting

Collection, classification and ascertainment of the cost of production or job undertaken by the firm.

Management Accounting

Data collected with the help of financial accounting and cost accounting for the purpose of policy formulation, planning, control and decision making by the management.

Why Tally ERP.9

TASK

Accurate Instant

Improve Effectiveness

Deployed Globally

Support all fields

Easy to Process

User Friendly

Accounting Terms

TASK

Intangible Assets

Those having no physical existence. It is right to some right and benefits to the owner.

Liabilities

Financial obligations of a business e.g. Loans from banks or creditors

Drawings

Cash or goods withdrawn from the business by the proprietor for his personal use. It is deducted from the capital.

Debitors

Who receives a benefit without giving assets liable to pay in future.

Creditors

Who gives a benefit without receiving assets to claim in future, a creditor.

Debit Aspect : The Receiver

Credit Aspect : The Giver

Debit Aspect : What come In
Credit Aspect : What goes out

Debit Aspect : All Expenses / Losses
Credit Aspect : All Incomes & Gains

A One day Workshop on How to win virtual Interview

About the College

S.R & B.G.N.R Government Arts and Science College was established in 1956 to cater the Educational needs of the Rural and Backward areas in and around Khammam town. Since Khammam is semi-urban area and is located aimed a commercially and industrially potential area, the college felt the need for introducing novel and Job Oriented Restructured courses to attend the demand of the day and the society.

About the Department

S.R & B.G.N.R Government Arts and Science College, Khammam has introduced the Computer Course in the year 1997 with B.Sc Mathematics, Physics and Computer Science combination. In the immediately successive year, i.e.(1998-1999) computer course with B.A and B.Com classes also was introduced. Since then there has been a steady and evident development of the department. Currently the Courses are B.Sc (Phy. Sci.) as MPCS, MCCS, MSCS, MECS, B.Com (CA), B.A(CA) and B.Sc (Life Sci. with CA) & with new course B.Sc Data Science.

About the Workshop

"How to Win Virtual Interview" Workshop will be held at SR & B.G.N.R GOVT. ARTS & SCIENCE COLLEGE(Autonomous), Khammam, Telangana India, on 15, March 2021. The aim of the workshop How to Win Virtual Interview is to provide the skills mechanism to the students for facing the interview in online mode as in the current scenario due to the Covid-19 pandemic and social distancing measures, many industries are hiring and conducting interviews in virtual (online) mode. The workshop is to meet new challenges, collect new ideas and exhibit it as a practice during the session.

Department of Computer Science & Applications is
organizing the following event.

Name of the Event: **Workshop**

Date: **15-09-21**

Venue: **Computer Lab**

Topic: **Workshop on How to Win Virtual Interview**

Department of Computer Science and Applications organized a workshop on "How to Win Virtual Interview" on 06-03-2021. The resource person is J.V.S. Arundathi and a well-known person in the field of Computer Science. The speaker began the workshop by giving information about current scenario to how to succeed in virtual interview, due to the global COVID-19 pandemic and social distancing measures, many industries are hiring online. According to research by Handshake, 89% of employers are conducting their job interviews online. However, pitching yourself as a candidate via video conference can be just as daunting as interviewing face to face.

They were also given brief introduction about the various tips used to make a good impression in a Virtual Job Interview

The speaker also gave valuable insights on interview questions both technical and aptitude. Overall the workshop was very informative and useful where the students gained a brief introduction to kick start their journey.

Content covered

A virtual interview, or video interview, is a digital method that enables remote assessment and screening of candidates. They are often used as a first stage screening method, although their use accelerated as more firms went remote during 2020.

Sometimes they are conducted by telephone but they mostly take place using video conferencing software. Common platforms for remote interviews include Zoom, Microsoft Teams and Hinterview.

Often, virtual interviewing will be conducted like a traditional interview. However, interviewing by video requires more thought about body language, facial expressions and non-verbal communication. These are harder to convey and interpret than during a face-to-face interview.

How to prepare for a virtual interview

1. Test Your Technology

The minute you agree to a virtual interview, test your technology to ensure you're set up for success. Check your internet connectivity, and confirm your camera and microphone are working. If the picture is grainy or you're experiencing an echo. On the day of, test your equipment and internet connection again.

2. Set the Scene and Minimize Distractions

While testing your technology, determine where to take the interview. Find a room with optimal lighting, preferably near a window, or a blank wall to guarantee you're the focal point of the conversation. Whether you sit on your living room couch or in your home office, tidy up your surroundings. It's hard to convince employers you're detail-oriented and organized when there's laundry visibly piling up in the corner. Once settled, eliminate all distractions. Turn off the TV, silence your cell phone, and close any nearby windows to muffle neighborhood traffic.

3. Sit Down Prepared

Just because you're on a computer doesn't mean you can search the web for answers mid-interview, so avoid clicking around. You want to appear focused and ready to answer any questions without the help of the internet. Research the company ahead of time and jot down notes for easy reference. Also print out a copy of your resume, so that you don't forget key talking points.

4. Practice, Don't Memorize

It's important to keep things simple. Don't feel like you have to give a long-winded answer if the question doesn't warrant it. Being clear and concise is one of the most important things in a job interview.

5. Monitor Your Body Language

The main way to communicate confidence is to sit up straight, smile, and keep the camera at eye level. Research shows that employers are more likely to remember what you said if you maintain eye contact, so keep your focus on the camera when talking, not on the image of the hiring manager.

6. Dress the Part

Professional clothing will show you're serious about the position, but there are personal benefits, as well: Studies show that people feel "most authoritative, trustworthy, and competent when wearing formal business attire."

7. Make a Connection

It's not easy to connect with everyone, but it's a crucial part of a virtual interview. You want the interviewer to be able to remember a personal story you told or a common interest you share. This is the best way to prevent yourself from blending in with the other applicants.

8. Be Yourself

Some people will be able to tell if you're "vibe" fits their company right off the bat. Give them a reason to push you through to the second round of interviews by shining a light on how you can help the organization.

9. Immediately Follow Up

If there was something specific you bonded over, mention that in the email so you stay top of mind. Or if an interviewer brought up a particular business challenge, use the follow-up as a way to propose potential solutions. Just keep the email concise; you want your note to leave a lasting impression, not immediately end up in the trash.

5 TOP ONLINE INTERVIEW TIPS

Make an Impression from a Distance

- ★ Look directly into the camera and not at the screen or monitor to make good eye contact
- ★ Don't be afraid to ask for a question to be repeated if you have not heard it properly. It is better to clarify
- ★ The sound system can be less than perfect so speak clearly and avoid mumbling or rushing your words
- ★ Be aware of your facial expressions and posture - they are a large part of your message online
- ★ Pause before answering a question to be sure the interviewer has finished speaking

HR Skills Institute

Concluding

Ultimately, the key to acing a virtual interview is proper preparation. From ensuring your technology is working to conducting research before the meeting, sitting down at your computer poised and ready for any and all questions will help set you apart from other applicants.

A One day Workshop on Artificial Intelligence

About the College

S.R. & B.G.N.R. Government Arts and Science College was established in 1956 to cater the Educational needs of the Rural and Backward areas in and around Khammam town. Since Khammam is semi-urban area and is located aimed a commercially and industrially potential area, the college felt the need for introducing novel and Job Oriented Restructured courses to attend the demand of the day and the society

About the Department

S.R. & B.G.N.R. Government Arts and Science College, Khammam has introduced the Computer Course in the year 1997 with B.Sc Mathematics, Physics and Computer Science combination. In the immediately successive year, i.e.(1998-1999) computer course with B.A and B.Com classes also was introduced. Since then there has been a steady and evident development of the department. Currently the Courses are B.Sc (Phy. Sci.) as MPCS, MCCS, MSCS, MECS, B.Com (CA), B.A(CA) and B.Sc (Life Sci. with CA) & with new course B.Sc Data Science.

About the Workshop

"Artificial Intelligence" Workshop will be held at SR & BGNR GOVT ARTS & SCIENCE COLLEGE(Autonomous), Khammam, Telangana, India, on 06, March 2021. The aim of the workshop Artificial Intelligence is generally associated with Computer Science, but it has many important links with other fields such as Maths, Biology and Philosophy, among many others. Our ability to combine knowledge from all these fields will ultimately benefit the progress in the quest of creating an intelligent artificial being.

Department of Computer Science & Applications is organizing the following event.

Name of the Event: Workshop

Date: 06-03-21

Venue: Computer Lab

Topic: Workshop on Artificial Intelligence

Content Covered:

- Artificial Intelligence (AI) is a branch of *Science* which deals with helping machines finding solutions to complex problems in a more human-like fashion.
- This generally involves borrowing characteristics from human intelligence, and applying them as algorithms in a computer friendly way. A more or less flexible or efficient approach can be taken depending on the requirements established, which influences how artificial the intelligent behaviour appears.
- AI is generally associated with *Computer Science*, but it has many important links with other fields such as *Maths, Psychology, Cognition, Biology* and *Philosophy*, among many others. Our ability to combine knowledge from all these fields will ultimately benefit our progress in the quest of creating an intelligent artificial being.

Types of Artificial Intelligence

- Reactive Machines
- Limited Memory
- Theory of Mind
- Self-Awareness

PRINCIPAL
SR & BGNR Govt. Arts &
Science College (NAAC B++)
Autonomous-KHAMMAM

Types of AI

The emergence of artificial superintelligence will change humanity, but it's not happening soon. Here are the types of AI leading up to that new reality.

Reactive AI	Limited memory	Theory of mind	Self-aware
<ul style="list-style-type: none">Good for simple classification and pattern recognition tasksGreat for scenarios where all parameters are known; can beat humans because it can make calculations much fasterIncapable of dealing with scenarios including imperfect information or requiring historical understanding	<ul style="list-style-type: none">Can handle complex classification tasksAble to use historical data to make predictionsCapable of complex tasks such as self-driving cars, but still vulnerable to outliers or adversarial examplesThis is the current state of AI, and some say we have hit a wall	<ul style="list-style-type: none">Able to understand human motives and reasoning. Can deliver personal experience to everyone based on their motives and needs.Able to learn with fewer examples because it understands motive and intentConsidered the next milestone for AI's evolution	<ul style="list-style-type: none">Human-level intelligence that can bypass our intelligence, too
			

Examples Of Artificial Intelligence

- Siri, Alexa and other smart assistants
- Self-driving cars
- Robo-advisors
- Conversational bots
- Email spam filters
- Netflix's recommendations

Pros

- Good at detail-oriented jobs;
- Reduced time for data-heavy tasks;
- Delivers consistent results; and
- AI-powered virtual agents are always available.

Cons

- Expensive;
- Requires deep technical expertise;
- Limited supply of qualified workers to build AI tools;
- Only knows what it's been shown; and
- Lack of ability to generalize from one task to another.

S.R & B.G.N.R Government Arts and Science College, Khammam has introduced the Computer Course in the year 1997 with B.Sc Mathematics, Physics and Computer Science combination. In the immediately successive year, i.e.(1998-1999) computer course with B.A and B.Com classes also was introduced. Since then there has been a steady and evident development of the department. Currently the Courses are B.Sc (Ply. Sci.) as MPCS, MCCS, MSCS, MECS, B.Com (CA), B.A(CA) and B.Sc (Life Sci. with CA) & with new course B.Sc Data Science.

About the Workshop

"Artificial Intelligence" Workshop will be held at SR & BGNR GOVT. ARTS & SCIENCE COLLEGE(Autonomous), Khammam, Telangana, India, on 06, March 2021. The aim of the workshop Creation of Google forms is generally associated with creating Google forms, it is a free online tool from Google which allows users to create forms, surveys, and quizzes as well as to collaboratively edit and share the forms with other people. Our ability to combine knowledge from all these fields will ultimately benefit the progress in the quest of creating google forms.

Department of Computer Science & Applications is organizing the following event.

Name of the Event: Workshop

Date: 01-09-21

Venue: Computer Lab

Topic: Workshop on Creation of Google Forms

Google Forms

Google Forms is a free online tool from Google which allows users to create forms, surveys, and quizzes as well as to collaboratively edit and share the forms with other people. Educators can use Google forms to assess their students at the beginning of the class and gauge pre-existing knowledge. Furthermore, Google forms can be used to give feedback to and receive feedback from students and parents. Similarly, students can use Google forms to assess their own learning and set the learning goals as well as to collect data for their research projects.

Opening Google Forms

Step 1. Open Google Chrome.

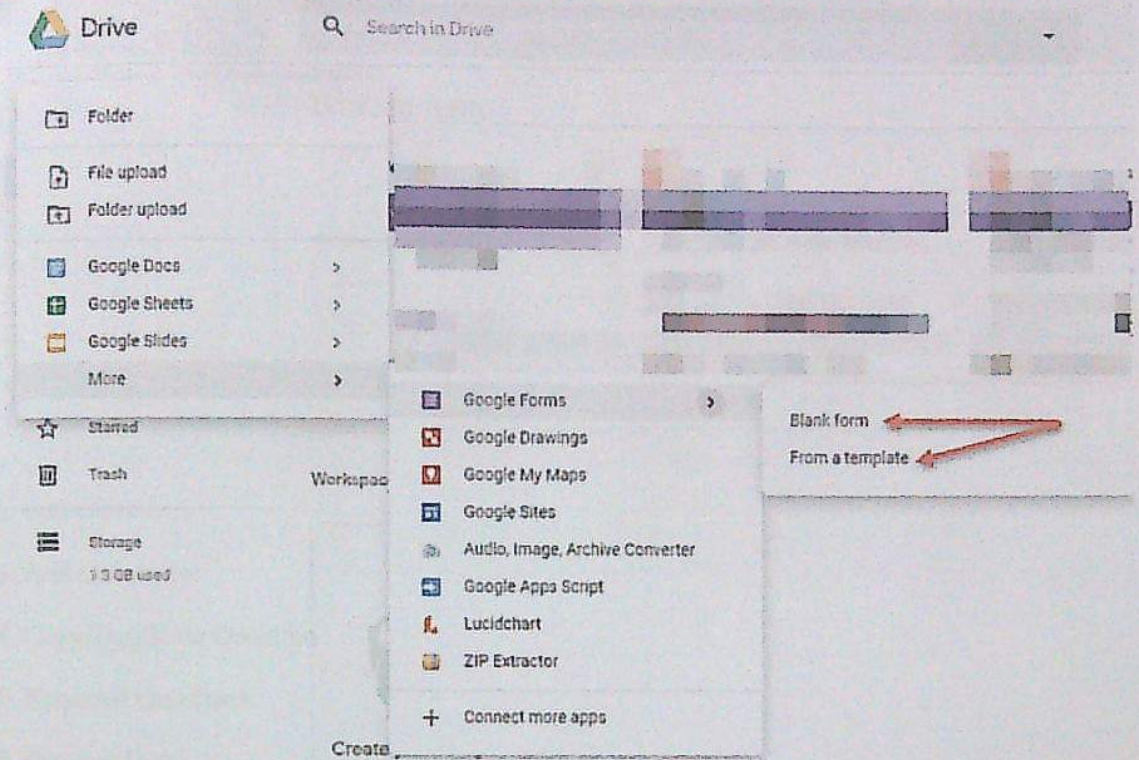

Step 2. Go to <http://drive.google.com>

Step 3. Enter your full Email address, then click next.

Step 4. Enter your Password, then click **Sign in**.

You will now be signed into Google Drive.

Step 5. Select New > More > Google Forms from the available menu, Choose either a Blank form or From a template.

Editing Google Forms

Creating a New Form from Template or by using a Blank form

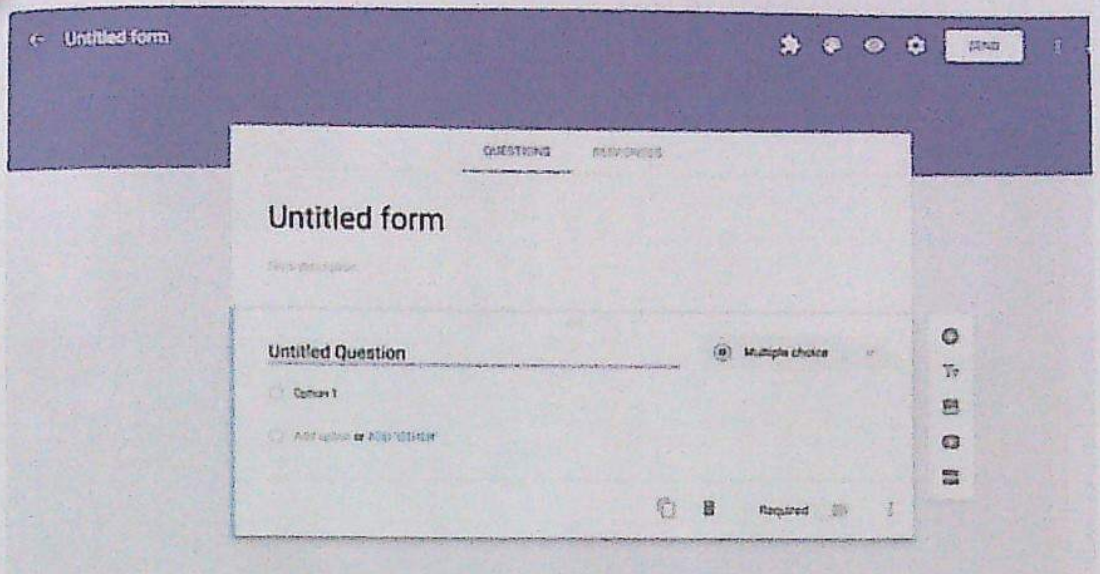

The Template gallery General tab offers a number of form templates. Or, simply click on Blank form to start from scratch.

Steps involved in Creation of Google Form after selecting Blank form

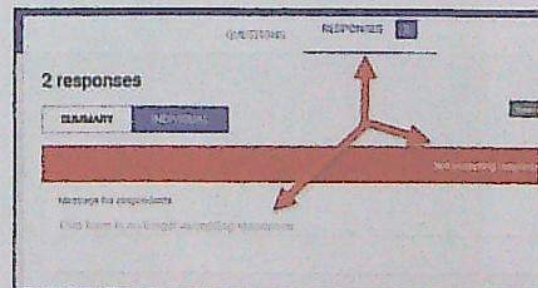

1. Editing your form

Name the Form, Click the "Untitled Form" name in the top left corner of the screen, then enter the form's name. Hit the "Enter" key to submit your changes. If using a template, click on the template title to change to a unique name of your choosing.

2. Edit Questions
3. Add Questions
4. Copy/Duplicate Question
5. Required Questions
6. Preview Form
7. Advanced Form Settings
8. Send Form
9. View Form and Form Responses in Google Drive
10. Close Form

We can close the form for submission by selecting the **Responses** tab, then clicking the **Accepting Responses** toggle. You can modify the message respondents will see if they try to access your form while it is closed. Click the toggle again to reopen your form.

Conclusion

If we wish to be notified of any new form submissions, select **Tools > Notification Rules** from the Google Sheet menu. Select your notification preference, then click **Save** to save your changes.

Do not modify the spreadsheet data until after you have collected all responses. Modifying the form could result in incorrect data placement.

A One day Workshop on Digital Marketing

About the College

SR & BGNR Government Arts and Science College was established in 1956 to cater the Educational needs of the Rural and Backward areas in and around Khammam town. Since Khammam is semi-urban area and is located amidst a commercially and industrially potential area, the college felt the need for introducing novel and Job Oriented Restructured courses to attend the demand of the day and the society.

About the Department

SR & BGNR Government Arts and Science College, Khammam has introduced the Computer Course in the year 1997 with B.Sc Mathematics, Physics and Computer Science combination. In the immediately successive year, i.e.(1998-1999) computer course with B.A and B.Com classes also was introduced. Since then there has been a steady and evident development of the department. Currently the Courses are B.Sc (Phy. Sci.) as MPCS, MCCS, MSCS, MECS, B.Com (CA), B.A(CA) and B.Sc (Life Sci. with CA) & with new course B.Sc Data Science.

About the Workshop

"Digital Marketing" Workshop will be held at SR & BGNR GOVT. ARTS & SCIENCE COLLEGE(Autonomous), Khammam, Telangana India, on 25, February 2021. The aim of the workshop Digital Marketing is to provide the skills mechanism to the students for learning marketing approach that primarily relies on the internet to connect with the target audience through various digital media channels and platforms. The workshop is to meet new challenges, collect new ideas and exhibit it as a practice during the session.

Department of Computer Science & Applications is organizing the following event.

Name of the Event: Workshop

Date 25-02-21

Venue: Computer Lab

Topic: Workshop on Digital Marketing

Content Covered:

Digital Marketing

Digital marketing is defined as a marketing approach that primarily relies on the *internet* to connect with the target audience through various digital media channels and platforms. Its development during the 1990s and 2000s changed the way brands and businesses use technology for marketing. As digital platforms became increasingly incorporated into marketing plans and everyday life,^[4] and as people increasingly use digital devices instead of visiting physical shops.

Apart from traditional marketing channels, such as television, newspapers, billboards, and so on, marketers use these digital channels to guide prospects through their purchase journey and keep in touch with their existing customers.

Types of Digital Marketing Channels

The most important types of digital marketing channels:

1. Website
2. Content Marketing
3. Social Media Marketing
4. Pay Per Click(PPC) and Search Engine Marketing(SEM)
5. Email Marketing
6. Marketing Automation
7. Inbound Marketing
8. Affiliate Marketing

1. Website

The website is often the home to your digital marketing efforts. Brands and organizations use websites to host content while using other mediums to distribute it. Most of your digital marketing activities will link back to your website, where an action is expected to take place, and the conversions are tracked.

2. Content Marketing

Content creation is the spine of your entire digital marketing strategy. Some of the most common formats of content include text (blog posts), videos, images, info graphics, podcasts, slide decks, and ebooks.

3. Social Media Marketing

Social media marketing ensure you are present on the platforms your users are spending the most time on. These include Facebook, Twitter, LinkedIn, Snapchat, and Instagram, where you can distribute content through both – organic and paid channels. Social media has also played a vital role in propagating video marketing and the ephemeral content wave.

4. Pay Per Click(PPC) and Search Engine Marketing(SEM)

Digital advertising is an umbrella term for various online advertising strategies. The typical pricing/bidding strategies for digital advertising are Pay-Per-Click (PPC) and cost-per-mille (CPM), i.e., per thousand impressions. Common formats of digital advertising are search engine marketing (SEM), display advertising, native advertising, social media advertising, and programmatic advertising.

5. Email Marketing

Email marketing is the process of maintaining a database of cold and warm contacts and sending them email alerts about your brand, products and services. Email marketing is useful to build your subscriber base, onboard new customers, retain existing ones, promote discounts and offers, and distribute content.

6. Marketing Automation

Marketing automation uses software to automate monotonous marketing work. Marketing departments can automate repetitive tasks such as email marketing, social media posting, and even ad campaigns - not just for the sake of efficiency, but also to provide a more personalized experience for their customers.

7. Inbound Marketing

Inbound marketing is a methodology based on attracting your target customers by accompanying them during the entire process from the time they first come into contact with your brand until they become loyal customers.

8. Affiliate Marketing

The concept of affiliate marketing is similar to commission-based sales. Organizations provide custom links to their affiliates. Affiliates earn a specific cut/commission every time someone buys through their custom link. Influence marketing could be considered a modern and evolved spin-off of affiliate marketing.

Few more types in Digital Marketing

Mobile Marketing

The number of smart phone users across the world is expected to grow to 3.5 billion in 2020. To bank on this opportunity, brands connect with their users on their smart phones through mobile apps, emails, mobile-friendly websites, and social media. By connecting with users on the go, brands have been able to optimize their marketing strategies and send timely messages.

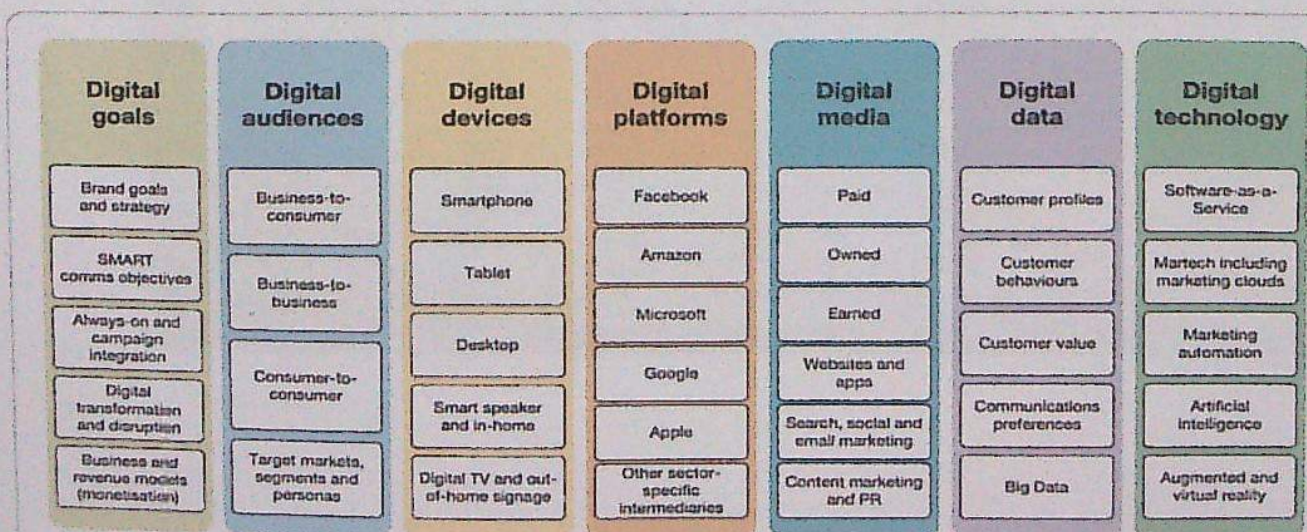

Web Analytics

Web analytics is the practice of collecting, measuring, analyzing, and reporting data. This is commonly tracked through Google Analytics, but websites could also build their analytical tools. Web analytics helps marketers understand the sources of traffic, what's working and what's not, the return on investments (ROI), and how they can enhance their digital marketing efforts.

Search Engine Optimization (SEO)

SEO acts as a jetpack for your content marketing efforts. SEO consists of on-page and off-page activities to boost your website's visibility in search engine result pages (SERPs) for your preferred keywords. Earlier, SEO was primarily text-based, but in recent years voice search has gained prominence as well, which is why your SEO activities need to have a conversational approach.

The 7Ds or pillars supporting effective digital marketing

Department of Computer Science & Applications is organizing the following event.

Name of the Event: Workshop

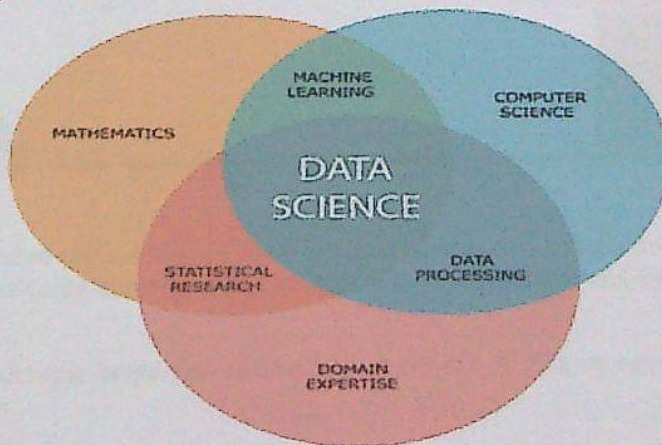

Date: 21-02-20

Venue: Computer Lab

Topic: Workshop on Data science

Content Covered:

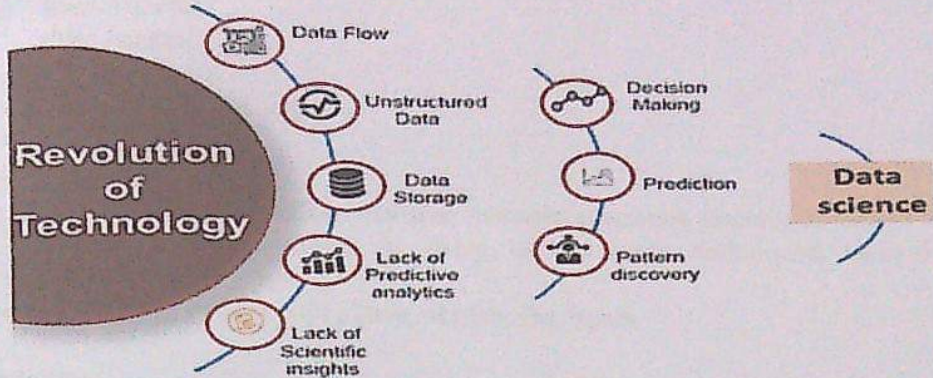

The term "data science" was coined in 2001, attempting to describe a new field. a famous blog post by Drew Conway in 2013, called The Data Science Venn Diagram, in which he drew the following diagram to indicate the various fields that come together to form what we call "data science."

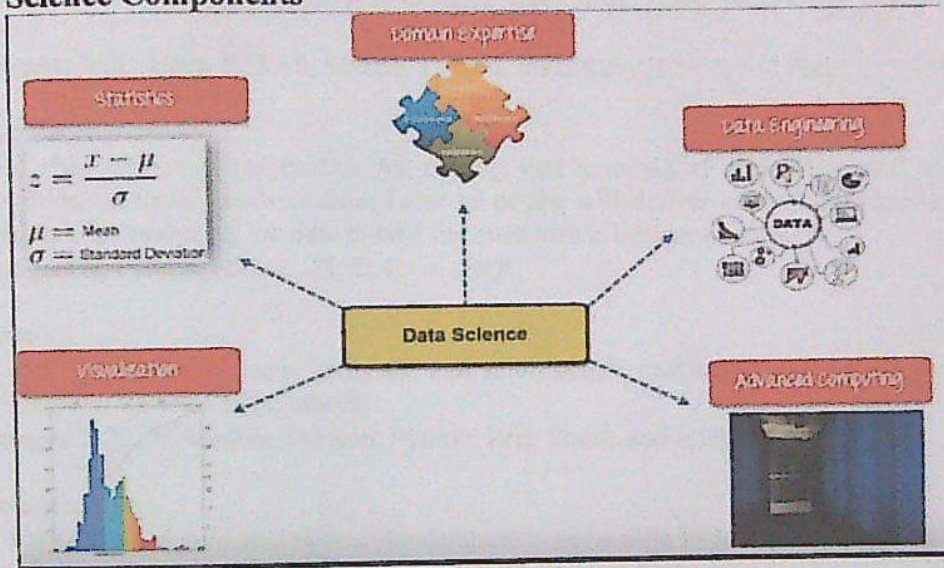

Regardless of whether data science is just a part of statistics, and regardless of the domain to which we're applying data science, the goal is the same: **to turn data into actionable value**. The professional society INFORMS defines the related field of analytics as "the scientific process of transforming data into insight for making better decisions."

Data science is a deep study of the massive amount of data, which involves extracting meaningful insights from raw, structured, and unstructured data that is processed using the scientific method, different technologies, and algorithms.

It is a multidisciplinary field that uses tools and techniques to manipulate the data so that you can find something new and meaningful.

Data Science Components

- Statistics:**
 Statistics is the most critical unit of Data Science basics, and it is the method or science of collecting and analyzing numerical data in large quantities to get useful insights.
- Visualization:**
 Visualization technique helps you access huge amounts of data in easy to understand and digestible visuals.
- Machine Learning:**
 Machine Learning explores the building and study of algorithms that learn to make predictions about unforeseen/future data.
- Deep Learning:**
 Deep Learning method is new machine learning research where the algorithm selects the analysis model to follow.

Data Science Jobs Roles

Most prominent Data Scientist job titles are:

- Data Scientist
- Data Engineer
- Data Analyst
- Statistician

- Data Architect
- Data Admin
- Business Analyst
- Data/Analytics Manager

Data Scientist:

- **Role:** A Data Scientist is a professional who manages enormous amounts of data to come up with compelling business visions by using various tools, techniques, methodologies, algorithms, etc.
- **Languages:** R, SAS, Python, SQL, Hive, Matlab, Pig, Spark

Data Engineer:

- **Role:** The role of a data engineer is of working with large amounts of data. He develops, constructs, tests, and maintains architectures like large scale processing systems and databases.
- **Languages:** SQL, Hive, R, SAS, Matlab, Python, Java, Ruby, C++, and Perl

Data Analyst:

- **Role:** A data analyst is responsible for mining vast amounts of data. They will look for relationships, patterns, trends in data. Later he or she will deliver compelling reporting and visualization for analyzing the data to take the most viable business decisions.
- **Languages:** R, Python, HTML, JS, C, C++, SQL

Statistician:

- **Role:** The statistician collects, analyses, and understands qualitative and quantitative data using statistical theories and methods.
- **Languages:** SQL, R, Matlab, Tableau, Python, Perl, Spark, and Hive

Data Administrator:

- **Role:** Data admin should ensure that the database is accessible to all relevant users. He also ensures that it is performing correctly and keeps it safe from hacking.
- **Languages:** Ruby on Rails, SQL, Java, C#, and Python

Business Analyst:

- **Role:** This professional needs to improve business processes. He/she is an intermediary between the business executive team and the IT department.
- **Languages:** SQL, Tableau, Power BI and, Python

Conclusion: Data science is valuable to any company in any industry so it is important to every student to have good knowledge about Data Science job roles who aspire to be in good position in their job.

Workshop Evaluation Form

Title of the Workshop: Data Science

Date: 21-02-2021

In order to continue to improve the quality of educational programming, the Department of Computer Science & Applications, would appreciate you taking few minutes of your time to complete this evaluation. Your comments and suggestions will help us to plan future lectures to meet your educational needs.

- | | |
|--|-----|
| 1. The workshop organization was | [4] |
| 1. Poor 2. Good 3. Fair 4. Excellent | |
| 2. The workshop instructor was | [4] |
| 1. Poor 2. Good 3. Fair 4. Excellent | |
| 3. The workshop presentation methods were | [4] |
| 1. Poor 2. Good 3. Fair 4. Excellent | |
| 4. The workshop activities were | [4] |
| 1. Poor 2. Good 3. Fair 4. Excellent | |
| 5. The workshop topic coverage and relevance was | [4] |
| 1. Poor 2. Good 3. Fair 4. Excellent | |
| 6. How would you rate the usefulness of the content was | [4] |
| 1. Poor 2. Good 3. Fair 4. Excellent | |
| 7. How would you rate the hand-on activities | [4] |
| 1. Poor 2. Good 3. Fair 4. Excellent | |
| 8. How would you rate the presenter's knowledge in the subject | [4] |
| 1. Poor 2. Good 3. Fair 4. Excellent | |
| 9. The workshop overall content was | [4] |
| 1. Poor 2. Good 3. Fair 4. Excellent | |
| 10. What is your overall assessment of the event | [4] |
| 1. Poor 2. Good 3. Fair 4. Excellent | |

SR & BGNR GOVT ARTS & SCIENCE COLLEGE(A)

Khammam :: Telangana-507002

DEPARTMENT OF COMPUTER SCIENCE AND APPLICATION

Certificate of Participation

This is to certify that Mr/Ms of SR & BGNR GOVT Arts & Science College(A), Khammam has successfully attended the national level Workshop on "Data Science" organized by Department of Computer Science and Application conducted on 21/02/2020 .

M.Srinivasa Rao
Convener

N.Srinivasa Rao
Incharge

K.S.S. Ratna Prasad
Principal

During this Academic Year (2020-2021) we have conducted the **group discussion** on various topics related to Computer Science Students. A separate register is maintained by the Department.

S. No	Date	Nature of Activity	Topic	Name(s) of the lecturer(s) involved	Details of Resource Persons (Name, Designation etc.,)	No. of students participated
1.	20.08.2020	Group Discussion	Life without phone	M. Srinivasa Rao Ch. Jamuna Rani	T. Ramya	25
2.	30.08.2020	Group Discussion	Artificial intelligence (AI)	M. Srinivasa Rao Ch. Jamuna Rani	G. Santhosh	29
3.	12.09.2021	Group Discussion	Cashless Society	M. Srinivasa Rao Ch. Jamuna Rani	M. Sainath	17

Group Discussion on Life without phone
