Description
It gives me immense pleasure to share a few ideas with you in this context. I am aware that, the word "Message" may sound rather a bit verbose to some on this occasion. The truth is, in the absence of any other substitute for it, one has to fall back upon it invariably. Therefore, I hope the viewers of the site would take a soft line about this trivial detail and pay serious attention to the substantive issue at hand. The history of S.R.&B.G.N.R. College is as old as Khammam district. It is one of the premier colleges in the Telangana state. Its alumni have been doing wonders in different fields. The college is vibrant and a hub of intellectual activity. It is a temple for learning, where the young are taught the very spirit of the constitution of the country by a dedicated band of the teaching fraternity. It is a college, where the students are taught that they have stake in the system, ipso facto, they have to be serious learners both academic and societal. No effort is spared to sensitize them about the many social evils of the country and how best they could do their part to root out them to make this country a really democratic one, not only in form but also in essence.

Description

It gives me immense pleasure to share a few ideas with you in this context. I am aware that, the word "Message" may sound rather a bit verbose to some on this occasion. The truth is, in the absence of any other substitute for it, one has to fall back upon it invariably. Therefore, I hope the viewers of the site would take a soft line about this trivial detail and pay serious attention to the substantive issue at hand. The history of S.R.&B.G.N.R. College is as old as Khammam district. It is one of the premier colleges in the Telangana state. Its alumni have been doing wonders in different fields. The college is vibrant and a hub of intellectual activity. It is a temple for learning, where the young are taught the very spirit of the constitution of the country by a dedicated band of the teaching fraternity. It is a college, where the students are taught that they have stake in the system, ipsofacto, they have to be serious learners both academic and societal. No effort is spared to sensitize them about the many social evils of the country and how best they could do their part to root out them to make this country a really democratic one, not only in form but also in essence.
