**SR&BGNR GOVERNMENT ARTS&SCIENCE COLLEGE(A): KHAMMAM
DISTRICT LEVEL TRAINING PROGRAMME ON CBCS on 10/08/2017**

About the College

S.R. & B.G.N.R Government Arts and Science College was established in 1956 to cater the Educational needs of the Rural and Backward areas in and around Khammam town. Ever since then, the college is catering to the needs of the downtrodden, weaker and marginalized sections of the society.

OBJECTIVES:

Outcome based Education (OBE) is a worldwide trend in Higher education that has now become a mandate for Indian Universities. It is a process of curriculum design, teaching learning methods and assessment that focuses on Learning Outcomes i.e. what students can actually do after the students in terms of their discipline specific knowledge and skills, generic competencies, attitudes and values that match the demands of the industry or the society. Learning outcome (Lo) based design of educational curriculum also helps teacher to be more efficient and effective in their delivery of courses. UGC now makes it obligatory for all Higher Educational Institutions to design and implement the LO based curriculum for various programmes. With this background this training programme is designed to build the capacity of teachers that will strengthen their quality of teaching, assessment and student interaction. It is also intended for understanding and implementing the Choice Based Credit System (CBCS) and its role in higher education.

VENUE

About the workshop: A one day workshop is organised by IQAC for teaching and non teaching staff o f the college on “SOFT SKILLS”. If staff know how to deal with people at the emotional level (peers, subordinates, superiors, students, etc.) through Emotional Intelligence (EI), they can build and sustain effective relationships that will result in mutual gain.

Soft skills provide staff with a strong conceptual and practical framework to build, develop and manage teams. They play an important role in the development of the overall personality. The soft skills training provides strong practical orientation to and helps them in building and improving their skills in communication, the effective use of English, business correspondence, presentations, team building, leadership, time management, group discussions, interviews, and inter-personal skills.

The training in soft skills has two parts. One part involves developing attitudes and attributes, and the other part involves fine-tuning communication skills to express attitudes, ideas, and thoughts well. Crucial to successful work is the perfect integration of ideas and attitudes with appropriate communication skills in oral, written, and non-verbal areas. Attitudes and skills are integral to soft skills. Each one influences and complements the other.

The training is conducted in a very informal, interesting, and interactive manner, which gives ample scope to interact with each other and face a wide variety of issues, topics, and situations that they are likely to come across.

OBJECTIVES OF SOFT SKILLS TRAINING

By the end of the soft skills training program, the staff should be able to:

- Develop effective communication skills (spoken and written).
- Develop effective presentation skills.

- Conduct effective business correspondence and prepare business reports which produce results.
- Become self-confident individuals by mastering inter-personal skills, team management skills, and leadership skills.
- Develop all-round personalities with a mature outlook to function effectively in different circumstances.
- Develop broad career plans, evaluate the employment market, identify the organizations to get good placement, match the job requirements and skill sets.

VENUE

Room No: 14

OBJECTIVE OF THE WORKSHOP: The intended purpose of this workshop is to help teachers become more in tune with the ever changing landscape of educational technology. What are teachers to do when the field is always changing? We must adapt, learn, grow as educators, and utilize the tools that are innovative and engaging. In this workshop teachers will become familiar with the components and parts of SMART board, how to navigate the software, and how to insert media into SMART board presentations.

The intent of this workshop is to assist teachers in enhancing the pedagogical toolbox by implementing SMART Board technology into their classroom practices effectively. Teachers will be able to:

- Identify SMART Board equipment
- Identify the tools available in SMART Board software
- Navigate SMART Board software
- Design activities that center around the SMART Board and utilize SMART Board software
- Integrate SMART Board usage into their classroom practice

PROFILE OF THE RESOURCE PERSON

Dr. K Nageswara Rao has a very vast experience in teaching in the field of computers and has trained several students earlier.

WORKSHOP ON CALCULATION OF SGPA & CGPA**

**Organised by
IQAC on 05/2/2018**

How to calculate SGPA & CGPA

Calculation for **SGPA**

- ✗ C_i = The number of credits in the semester
- ✗ P_i = Grade point earned in the semester
- ✗ $i = 1, 2, 3, \dots, n$ represent the number of courses in the semester

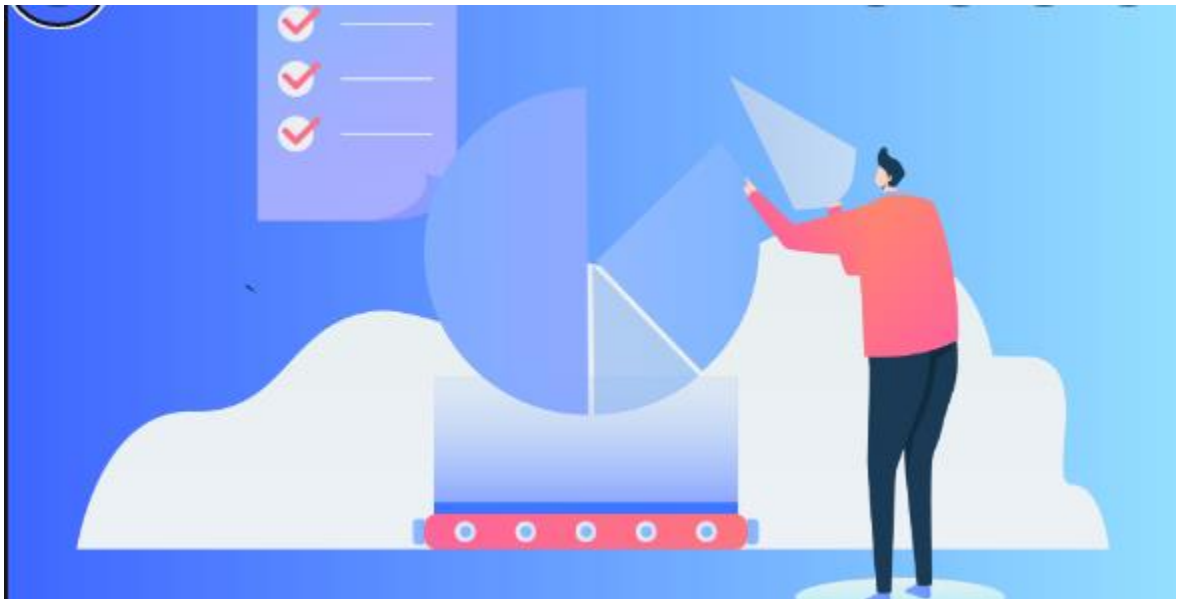

$$\text{SGPA} = \frac{\sum_{i=1}^n C_i P_i}{\sum_{i=1}^n C_i}$$

It is calculated by dividing total credit points obtained by the student in one semester by total credit points.

OBJECTIVES OF THE WORKSHOP

- To make faculty understand what is CGPA and SGPA
- To enable them to calculate CGPA & SGPA

Computation of SGPA

Illustration No.1

Course	Credit	Grade letter	Grade point	Credit Point (Credit x Grade)
Course 1	4	A	8	4x8 = 32
Course 2	4	C	6	4x6 = 24
Course 3	4	B	7	4x7 = 28
Course 4	3	O	10	3x10= 30
Course 5	3	D	4	3x4 = 12
Course 6	3	C	6	3x6 = 18
Course 7	2	S	9	2x9 = 18
Course 8	2	C	6	2x6 = 12
	25			174

Thus, **SGPA= 174/25=6.96**
