FIELD TRIPS

Program Code	Programme Title	No. of students enrolled
2021-2022		
FP1	Industrial visit to IT HUB , Khammam	69
2019-2020		
FP2	Industrial visit to Infosys , Hyderabad	54

Field trips are generally motivating for students, bring a vividness or reality we cannot bring with conventional lessons, and provide information for learning in a relevant real world context.

Establish the educational purposes of the trip. Writing educational goals, the activities and content examined during the field trip must be relevant and connected to outcomes and objectives in the curriculum. Field trips can certainly be entertaining, but if entertainment is the only outcome, the teacher must rethink the trip with respect to the use of time and other resources that are both limited and precious.

Take the trip before you take students there. We are to be the guide, therefore, we need to know what kids will be experiencing. A pre visit will help us understand what to expect, and what to avoid. If we can't, then study background information for the visit. We need to acquire valuable knowledge for the visit and for instructional activities after the visit.

2021-22

Industrial visit to IT HUB , Khammam

Khammam is the third-tier II town in the state to get IT tower. The IT Hub, which was established in December, 2020, has become a model for tier-2 cities across India in promoting rural employment. IT and Industry Minister K.T. Rama Rao inaugurated the facility, where 19 companies started their operations. The firms include those based in the US and Australia. With a total of 42,000 square feet space, the facility has been built at a cost of Rs 27 crore.

According to officials, it is a 430-seater operation but in two to three shifts, the capacity can go up to 1,000. Over 350 skilled Information Technology (IT) professionals have been working in reputed IT companies that have set up their branches here. Of the 350 professionals, around 223 are women and 138 men.

The firms located at IT Hub in Khammam have been operating beyond the BPO mould and working on emerging technologies like Artificial Intelligence (AI), Machine Learning (ML), Full Stack, Microsoft Technologies and cyber security.

The IT hub is expected to create more indirect jobs also and provide impetus to the local economy in Khammam.

The spacious building would house an office of the Telangana Academy for Skill and Knowledge (TASK) on the ground floor.

Skill enhancement has been one of the top priorities of the IT Hub-Khammam. Skill development programs are being conducted by TASK to enhance the capabilities of the local talent pool and empower them to handle complex projects successfully. This will allow local students to get trained in the latest technologies.

Companies inside this IT Tower also can work closely with the local colleges and fine tune the curriculum, training etc.

Department of Computer Science & Applications visited IT Hub on 28th Feb 2022. Students visited Startups, they have given suggestions, guidelines for how to do projects.

This field trip motivated students to bring a vividness and reality which cannot bring with conventional lessons, and provide information for learning in a relevant real world context.

Final Year Students of Computer Science & Applications felt happy after visiting IT Hub as they came to know about the software environment, working methods, how to develop projects. It's a great pleasure to met developers at Startups as they guided and motivated Students into IT World.

Industrial visit to Infosys , Hyderabad

We are much thankful to the Infosys Incharge for allowing the students to get the feel of latest technologies used in exploring various problems.

Infosys Limited is an Indian multinational information technology company that provides business consulting, information technology and outsourcing services. The company was founded in Pune and is headquartered in Bangalore. Infosys is the second-largest Indian IT company after Tata Consultancy Services by 2020 revenue figures and the 602nd largest public company in the world according to Forbes Global 2000 ranking.

Infosys was founded by seven engineers in Pune, Maharashtra, India with an initial capital of \$250 in 1981. It was registered as Infosys Consultants Private Limited on 2 July 1981. In 1983, it relocated its office to Bangalore, Karnataka, India.

The company changed its name to Infosys Technologies Private Limited in April 1992 and to Infosys Technologies Limited when it became a public limited company in June 1992. It was later renamed to Infosys Limited in June 2011.

Infosys provides software development, maintenance and independent validation services to companies in finance, insurance, manufacturing and other domains.

One of its known products is Finacle which is a universal banking solution with various modules for retail and corporate banking.

Its key products and services are:

- NIA – Next Generation Integrated AI Platform (formerly known as Mana)
- Infosys Consulting – a global management consulting service

Training centre in Mysore

As the world's largest corporate university, the Infosys global education centre in the 337 acre campus has 400 instructors and 200+ classrooms, with international benchmarks at its core. Established in 2002, it had trained around 125,000 engineering graduates by June 2015. It can train 14,000 employees at a given point of time on various technologies.

The Infosys Leadership Institute (ILI), based in Mysore, has 196 rooms and trains about 4,000 trainees annually. Its purpose is to prepare and develop the senior leaders in Infosys for current and future executive leadership roles.

The Infosys Training Centre in Mysore also provides a number of extracurricular facilities like tennis, badminton, basketball, swimming pool, gym and bowling alley. It has an international level cricket ground approved by BCCI.

Department of Computer Science & Applications visited Infosys, Hyderabad on 13th January, 2020.

This field trip motivated students to bring a vividness and reality which cannot bring with conventional lessons, and provide information for learning in a relevant real world context.

Students worked on the day with the guidance of the developers and worked on a minor project, they are very enthusiastic in doing project. Finally they came to know how really a project develop.

Final Year Students of Computer Science & Applications felt happy after visiting Infosys as they came to know about the software environment, working methods, how to develop projects. It's a great pleasure to met developers, they have guided and motivated Students into IT World.
