“Coaching for Competitive Examinations “

- The Faculty of Department of Computer Science & Applications conducted coaching classes for final year computer science students from 12-04-2023 to 28-04-2023.
- The coaching helps in identifying a student's strength towards achieving their goals based on their best skills.
- The scores of these aptitude tests help the experts determine what is best suited for a child, based on their skill set. It isn't only a career defining test.
- Aptitude testing can help identify an individual's vocational strengths and weaknesses in specific areas, which can help them succeed in a particular job or career.
- Aptitude exams can help people learn more about their innate talents and skills, as well as how well they function.
- They also assist people in determining how effectively their inherent skills and abilities complement one another. It also reveals a lot more about a person's strengths and flaws.
