CERTIFICATE COURSE IN WATER RESOURCES MANAGEMENT

DURATION OF THE COURSE..FOUR WEEKS/28 DAYS from 1st November
2022 to 2nd December 2022

Objectives

The objective of this certificate course is to develop an understanding of the problems related to water management. Firstly, this course will define a resource and, more specifically, the resource of water. It will look at how water is used and the activities associated with it as well as any potential conflicts. The course will look at water management in detail through the analysis of the different types of rights and obligations associated with, for example, the development of a multi-sectorial regulation system or a watershed management approach.

Out comes

By the end of this course, our aim is to enable student to:

- 1) Identify the main issues and strategies linked to water resource management
- 2) Acquire the key reading material needed to understand the many variables (environmental, institutional and political) which affect water and which, in terms of management,

This course is designed for all those interested in the water sector. Prior training is not necessary to follow our program. The findings presented in this course can be easily reapplied to different contexts and to different scales of analysis.

This course is designed to provide a basic understanding of the impact of water and water-related issues in a global, economic, environmental, and societal context.

We anticipate that this course will help the participants appreciate water's importance as a precious resource.
