Field Trip to
Dept. of Chemistry Osmania Unives
city Hyderabad

A field trip was organized by dept. of chemistry to department of chemistry Osmania university, Hyderabad, selected students of I, II, and Final year students were taken to research lab. About 700 students were visited research lab along with the faculty members. The Registrar of Osmania university gave permit to visit Shivaraj's lab, via Shivaraj sir taught with students and explained about latest trends in chemistry research. Then he attached to his scholars Paravath Seemina and Swathi, they showed various latest instrument and demonstrated in their lab. The students visited other ^{chemistry} research labs in the university campus; and the students interacted with the research assistants and scholars.

**Field Trip to Department of Chemistry Chaitanya
Deemed to be University, Hanamkonda 17-02-2020**

Field Trip to Central Instrumentation Lab, NIT Warangal

Field Trip to NIT Warangal

A field trip was organised by the department of chemistry to NIT Warangal. Selected students were taken to the NIT Warangal.

Around 15 students visited central instrumentation lab in NIT Warangal along with faculty members of chemistry department.

Central Instrumentation Lab Incharge explained the student abouts different spectrophotometers and their function.

Later students along with the faculty members also visited chemistry department in NIT Warangal. Head department of chemistry Prof. K. Lakshmi Reddy permitted the students to visit various research laboratories. Senior research scholars of chemistry department explained the student about various techniques adopted and different laboratory instruments used in the lab.

Field Trip to Department of Chemistry, NIT Warangal

DEPARTMENT OF ECONOMICS

Field Trip

To study the rural credit system, a study tour was organized by the department on 14-12-2017 to Pathipaka village of Shyampet mandal in Warangal district. The objective of the tour was to study the institutional and non-institutional credit sources and also the accessibility of banking facilities to villagers.

It was found that still villagers were in the clutches of land lords and money lenders for their loan requirements and paying exorbitant interests. As the coverage of institutional credits resources like banks and cooperative societies was very limited and their loan amount was not sufficient to meet the requirements, the villagers mainly depended on local brokers (Dalal) for their loans. Total 130 students of BA groups participated in the tour and interacted with the villagers. The faculty members Y. Narendra, Dr. M. Ravinder and Dr. A. Venkata Ramana acted as facilitators for the tour.

Field trip at Pattipaka village

Department of Economics - Field Trip - 2018-19

Handloom Expo – 2019 in Hanamkonda

The department of economics organized an exposure visit to Indian Handloom Expo – in Hanamkonda on 02-03-2019 to interact with the entrepreneurs of small scale handloom units. The students observed the problems faced by the small scale handloom entrepreneurs regarding raw materials, power problems, marketing facilities and loan availability etc. The students also interacted with the entrepreneurs and observed the handloom products of different states. Total 28 students of BA sections participated in the field trip. HOD Ch. Raju, faculty members Dr. G. Shymu, K. Surya Rao and Dr. B. Nainadevi acted as facilitators in the field trip.

Dr. B. Nainadevi, Assistant Professor of Economics and students interacting with the Small scale entrepreneur as a part of field trip.

Changing Food Habits- Boon For Millets Sales – a Study in Hanamkonda Town
https://drive.google.com/file/d/1D0x-Au7meOQOTqXIVIX_jZKAA63oXhjJ/view?usp=sharing

The Department encouraged the students to participate in a Survey to know the “Changing Food Habits – Boon for Millets sales in Hanamkonda Town as a part of “ Jignasa” : A student research programme initiated by Commissioner of Collegiate Education, Hyderabad TS. This project was selected for State level Presentation at City government College (Autonomous) Hyderabad. The present study was undertaken in 4 main areas of Hanamkonda town. The study areas are Waddepally, Teachers colony, Gopalpur and Excise colony. A sample of 70 respondents was chosen for the study. Among the sample 60 respondents Millet consumers and the remaining 10 respondents were the sellers of millets from selected area. The selection of sample was purposive. 20 Students of BA HEP II Telugu medium participated in the collection of Primary Data.

Dr. B. Nainadevi Assistant Professor of Economics along with students collecting the data

Field Trip by the Department of English

2019-20

The Department of English undertook a field trip to NIT, the prestigious Institute in Telangana. The students visited the English Language Lab. They learnt how technology is used to improve the language skills. They spent time in the lab, listening to the expert.

Field Trip by the Department of English

2020-21

The Department of English made a trip to Fort Warangal. The students have learnt about the wonderful Sculpture of Kakatiyarulers. They made a note of the structures and try to attempt write-ups on the beautiful constructions in Fort Warangal. The field trips aims at bringing out the inherent creative talents of the students.

Visit To the ELL at NIT: Importance and Uses

Language Lab software is a classroom based solution which will be installed on the computer in classroom and the content can be accessible in the respective classroom system. English Language becomes the default option for communication as it is spoken and understood across the global. Hence making it a good companion for travel enthusiasts. While proficient

English-speaking skills appeals your resume and it can boost hiring potential. A recent survey by LinkedIn stated that CEOs and HR Directors prefer English speaking employees over other languages.

English Language is not the first language for many Indians and it's a language ought to be learned. It is only taught in few English medium schools across the country; hence, a huge chunk of population never got the opportunity to learn English language.

The Department of English at NIT Warangal has well-furnished English lab. It provides the students a scope to improve their communication skills. The students of Kaktiya Government College under the guidance of the Department of English visited the Lab at NIT and learnt the technicalities of language learning through Lab.

DEPARTMENT OF ENGLISH
FIELD TRIP TO FORT WARANGAL
A NOTE ON THE FORT

Warangal is recognized as one of the best heritage cities of India. It is 145 km away from the state capital Hyderabad. It is also the second largest city in the state of Telangana. The city's name is derived from the Telugu word Orugallu – 'Oru' which means one and the word 'gallu' meaning stone. The city was the capital of the great Kakatiya rulers who reigned between 12th and 14th centuries.

According to the history of Warangal, the Prola Raja of great Kakatiya dynasty built the beautiful city in 12th century. The Kakatiyas, who ruled the place for more than 200 years, have left the succeeding generations, many grand monuments and architectural wonders like the famous Warangal fort, Swayambhu Temple and many other amazing ancient structures. The Warangal Fort, which is the main attraction of the city is spread over a radius of 19 kilometers between Warangal and Hanamkonda. The fort was constructed in the 13th century in the reign of the Kakateya King Ganapati Deva. The Warangal fort is most famous for its graceful and finitely carved arches and pillars. This fort has four large stone gateways.

Warangal fort is located at a distance of 3-4 km from Warangal city, which is well connected by road and rail from Hyderabad, approx.140 km away.
