Address by Prof. CH. Sanjeeva Reddy

Address by Prof. Vadde Ravinder

‘Huge career potential in Chemistry’

STATE BUREAU
Warangal Office

Ch Sanjeeva Reddy, vice president, Telangana Academy of Sciences, Hyderabad, stressed on the need to improve communication skills of students in addition to providing them with the subject knowledge.

He said there were enormous opportunities in the field of Chemistry, but at the same time competition is also very high.

“Therefore students need to update their skills on day-to-day basis to be the front runners,” he added while delivering the keynote address at the one-day seminar on ‘Chemistry and Employability Skills’ organised by the Department of Chemistry, Kakatiya Government Degree College, Hanamkonda, on the occasion of superannuation of Dr B Suresh Babu.

Dr Suresh Babu has served as a Chemistry teacher for 35 years in various Government Degree Colleges in Karimnagar and

Dr B Suresh Babu being felicitated at Kakatiya Degree College, Hanamkonda, on Wednesday.

Warangal. He retired as the Head of Department of Chemistry and Vice Principal, KDC Hanamkonda. He was instrumental in helping over 500 students secure PG seats in various Central Universities and State Universities as well.

Presiding over the programme, Principal Pamu Venkateshwarlu said organising a seminar on the occasion of superannuation was a sign of good academic culture and also sets a tradition

in government colleges.

Seminar convener and Head, Department of Chemistry B Ramesh said the objective of the seminar was to bid farewell in a grand manner to a great teacher and at the same time to motivate the students to take up career in Chemistry which had got huge potential in the fast changing world.

During the technical session, Vadde Ravinder, UGC-BSR faculty fellow, Kakatiya University, stressed on the

need to sharpen laboratory skills which were sought after by the ever growing Pharma industry.

He said that there were over 500 chemical industries in and around Hyderabad alone.

“There are many openings for UG, PG and PhD students. But the industry personnel look for analytical and experimental skills, in addition to subject domain knowledge of job aspirants,” he added.
