About the Seminar:

Globalization and technological change processes that have accelerated in tandem over the few years have created a new global economy "powered by technology, fueled by information and driven by knowledge." The emergence of this new global economy has changed the direction of educational institutions across the globe and institutions are promoting "Learning to Learn," i.e., the acquisition of knowledge and skills that make possible continuous learning over the lifetime. The rapid spread of ICT applications has brought drastic technological, social and economic transformations. These changes have caused educational institutions, teachers to rethink their roles, teaching and vision for future. The sustainability of a Nation in the eraof knowledge economy depends more on the effective educational system.

The effective integration of ICTs into the educational system is a complex, multifaceted process that involves not just technology but also curriculum and pedagogy, institutional readiness, teacher competencies, and long-term financing etc. It is observed that penetration of ICT is faster in developed nations rather than developing Nations. The penetration of ICT can be linked to socio-economic conditions of a nation such as education, freedom for information exchange, promotion of basic telecommunications infrastructure and market. Virtual learning is one of the emerging outcomes of technological revolutions of Higher learning systems. E-learning and E-resources are gaining much

one-day UGC sponsored national seminar on "Innovations in Teaching and Learning Practices in Higher Education: Role of Library and Information Science for the Quality Enhancement" was held at Kakatiya Government College, Hanamakonda on Saturday.

READING HABITS ARE DWINDLING AMONG STUDENTS, DR B DARJAN POINTED OUT

It was organised in collaboration with Telangana State Library Association. Addressing at the inauguration of the seminar, Dr B Darjan, Regional Joint Director, Collegiate Education, Warangal said that the libraries are heart and soul of the educational institutions and play vital role in higher education. With ICT, radical changes took

place with regard to access of information which is abundantly available across the world on the net. She exhorted the library professionals to orient the students to use these information sources. In place of traditional libraries, digital libraries are usurping in, she noted. Reading habits are dwindling among students, she pointed out. Orientation programmes should be conducted to create awareness among students about the books and other study material available in print and electronic form. "Teachers should be lifelong learn-

ers in order to impart the current developments in their respective subjects," she opined, "lest they would become obsolete". She promised to resolve the problems

of college libraries. The seminar was organised in three sessions in which twenty papers were pre-sented. Principal Dr V Vijaya Lakshmi, Prof N Laxman Rao, Prof S Sudershan Rao of Osmania University, V Krishnama Charya, Shankaraiah, Dr A Sanjeevaiah, B Satyanarayana were present. — PLaxma Reddy
