Student's Seminar

(5-01-2018 to 8-01-2018)

The department of economics conducted student's seminars from 5-01-2018 to 8-01-2018 to analyze the study tour finding of Pathipaka village in Room no.48. The students were taken to the field visit to study the rural credit system in Pathipaka village. Observation, questionnaire method was used to find out the results. The students analyzed their findings and presented in the seminar.

It was found that efforts of institutional agencies were not sufficient to meet the loan requirement of the villagers. As a result of this, they depended on the local money lenders and land lords for their loans. Some extent SHGs succeeded in providing loan facilities to the villagers. The students also observed that villagers were spending their loans on nonproductive activities like marriages, festivals and social customs. As their repayment capacity was low, they were unable to break the vicious circle of debt.

Total 80 students participated in the seminar. Y. Narendra, Dr. M. Ravinder and Dr. A. Venkata Ramana provided guidance for the seminars.
