## **FIELD TRIPS**

### **DEPARTMENT OF BIOTECHNOLOGY**

#### **Field trip details year wise along with photos**

**2016-2017**

**Green house and poly house, kakatiya university**

**2017-2018**

**Kakatiya university, Florescent and Compound Microscopes**

**2018-19**

The students of the Biotechnology Department have visited Kakatiya university central instrumentation facility for observing the working and applications of instruments which are in their syllabus covered under Plant biotechnology Culture Room

2019-20  
Field Trip to Kakatiya University

2020-21

Kakatiya university, UV Visible and Fluorescence Microscope SEM and Atomic absorption spectrophotometer

**Vermicomposting, Kakatiya University**

**2021-22**

The students of the Biotechnology Department have visited Osmania University and IICT, Hyderabad as part of Industrial Field Visit. On 30-04-2022

**Field Visit to NIT Warangal on 22-02-2022**

## **DEPARTMENT OF BOTANY**

### **DETAILS OF THE FIELD TRIPS**

#### **2020-2021**

S.No	Date	Place	Class
1	12/03/2021	Department of Botany, Kakatiya University	B.Sc( B. Z.C.) IIIYr

#### **2019-2020**

S.No	Date	Place	Class
1	07/03/2020	Biological tour Eturinagaram Forest Area	B.Sc( B. Z.C.) IIIYr

#### **2018-19**

S.No	Date	Place	Class
1	09/11/2018	Nursery Techniques – District Forest Research Station, Hanamkonda	B.Sc. IIIYr (19)
2	26/09/2018	Department of Botany & Biotechnology Kakatiya university, Warangal	B.Sc.B.Z.C IIIYr (29)

#### **2017-18**

S.No	Date	Place	Class
1	21/12/2017	Algal Collection- Bhadrakali Lake	B.Sc. IYr (56)
2	03/11/2017	Tissue Culture Laboratory, Department of Biotechnology Kakatiya university, Warangal	B.Sc. IIIYr (22)
3	25/07/2017	Botanical Survey of Medicinal Plants of Kakatiya Govt. College, Hanamkonda	B.Sc.B.Z.C IYr (20)

#### **2016-17**

S.No	Date	Place	Class
1	09/02/2017	Department of BioTechnology Kakatiya university	B.Sc.B.Z.CIIYr (23)
2	08/02/2017	Agricultural Tools Exhibition, Regional Agriculture Research Station, Warangal	B.Sc.B.Z.C IYr B.Sc.B.Z.C IYr (42)

3	03/02/2017	Department of Botany Kakatiya university, Warangal	B.Sc.B.Z.C IIIYr (35)
4	5/11/2016	Regional Agriculture Research Station, Warangal	B.Sc.B.Z.C IYr (20)

**2020-2021**

2019-2020

2018-2019

**Visit to District Forest Research Station, Hanamkonda on 09/11/2018 – To acquire knowledge on Nursery Techniques**

**Visit to Departments of Botany & BioTechnology, Kakatiya University, Warangal on 26/09/2018**

**2017-18**

**Visit to Tissue Culture Laboratory, Department of Biotechnology, Kakatiya university, Warangal on 03/11/2017**

**Botanical Survey of Medicinal Plants of Kakatiya Govt. College, Hanamkonda on 25/07/2017**

**2016-17**

**Visit to Departments of Botany & BioTechnology, Kakatiya University, Warangal on 09/02/2017**

**Visit to Agricultural Tools Exhibition, Regional Agriculture Research Station, Warangal on 08/02/2017**

**Visit to Departments of Botany, Kakatiya University, Warangal on 03/02/2017**

**Visit to Regional Agriculture Research Station, Warangal on 08/02/2017**

2016-17

**Visit to Krishi Vignan Kendram Jammikunta**

## DEPARTMENT OF CHEMISTRY

**Field Trip to Vinayaka Polymers, Industrial Estate, Warangal 31-03-2018**

classmate  
Date 31/03/18  
Page

The Department of Chemistry organized a Field Trip to the B.Sc. students to the Vinayaka Polymer Industry located in T.S Industrial Estate, Munglu Road on 31st March, 2018.

Nearly twenty students visited the Industry along with the faculty members. The manager of the factory explained the students the details of the process of the making of High Density Polythene pipes from raw material to the final product.

The polythene waste collected in special chambers and initially used to prepare HDPE pipes.

The students observed the whole process attentively and interacted with the manager of the factory. The faculty members also explained the students about the theoretical background of the process.

## Field Trip to Chaitanya (Deemed to be University)

A Field trip was organised by the Department of Chemistry to Chaitanya (Deemed to be University). BSc III yr selected students were taken to the Chaitanya (Deemed to be University) campus.

Nearly Ten students visited microbiology department along with faculty members of Chemistry department. Microbiology department incharge explained Disc diffusion method which is used to study antimicrobial activity. The students were interacted with faculty of microbiology department.

BSc III yr students in the Microbiology department lab.

**Field Trip to Central Instrumentation Lab, NIT Warangal**  
**24-11-2021**

Field Trip to NIT Warangal

A field trip was organised by the department of chemistry to NIT Warangal. Selected students were taken to the NIT Warangal.

Around 15 students visited central instrumentation lab in NIT Warangal along with faculty members of chemistry department.

Central Instrumentation Lab incharge explained the students about different spectrophotometers and their function.

Later students along with the faculty members also visited chemistry department in NIT Warangal. Head department of chemistry Prof. K. Lakshma Prasad permitted the students to visit various research laboratories. Senior research scholar of chemistry department explained the students about various techniques adopted, and different laboratory instruments used in the lab.

## Field Trip to NIT Warangal

A Field trip organised by Department of Chemistry, Kakatiya Government College, Hanamkonda with the permission from Principal Dr. K. Malleshwari NIT-Warangal on 22.2.2022.

Around 25 students from final year B.Sc visited center for Automation and Instrumentation (CAI) along with chemistry department faculty members.

K. Srinivas (technician) and Dhananjaya (Research scholar) explain our students about the functioning and Application Mass, H<sup>1</sup>-NMR and UV-Visible spectrophotometry. Final year students felt very happy and got enriched about the various spectroscopic technique used spectral analysis. During this field trip we also visited Department of Chemistry NIT Warangal.

## DEPARTMENT OF ECONOMICS

### Field Trip

(14-12-2017)

To study the rural credit system, a study tour was organized by the department on 14-12-2017 to Pathipaka village of Shyampet mandal in Warangal district. The objective of the tour was to study the institutional and non-institutional credit sources and also the accessibility of banking facilities to villagers.

It was found that still villagers were in the clutches of land lords and money lenders for their loan requirements and paying exorbitant interests. As the coverage of institutional credits resources like banks and cooperative societies was very limited and their loan amount was not sufficient to meet the requirements, the villagers mainly depended on local brokers (Dalal) for their loans. Total 130 students of BA groups participated in the tour and interacted with the villagers. The faculty members Y. Narendra, Dr. M. Ravinder and Dr. A. Venkata Ramana acted as facilitators for the tour.

Field trip at Pattipaka village on 14/12/2017

## Department of Economics - Field Trip - 2018-19

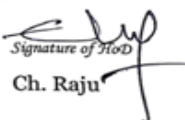

### Handloom Expo – 2019 in Hanamkonda - (02-03-2019)

The department of economics organized an exposure visit to Indian Handloom Expo –in Hanamkonda on 02-03-2019 to interact with the entrepreneurs of small scale handloom units. The students observed the problems faced by the small scale handloom entrepreneurs regarding raw materials, power problems, marketing facilities and loan availability etc. The students also interacted with the entrepreneurs and observed the handloom products of different states. Total 28 students of BA sections participated in the field trip. HOD Ch. Raju, faculty members Dr. G. Shymu, K. Surya Rao and Dr. B. Nainadevi acted as facilitators in the field trip.

Dr. B. Nainadevi, Assistant Professor of Economics and students interacting with the Small scale entrepreneur as a part of field trip.

## **Student's Study Project- (BA HEP TM II 2019-20)**

### **Changing Food Habits- Boon For Millets Sales – a Study in Hanamkonda Town**

[https://drive.google.com/file/d/1D0x-Au7meOQOTqXIVIX\\_jZKAA63oXhjj/view?usp=sharing](https://drive.google.com/file/d/1D0x-Au7meOQOTqXIVIX_jZKAA63oXhjj/view?usp=sharing)

The Department encouraged the students to participate in a Survey to know the “Changing Food Habits – Boon for Millets sales in Hanamkonda Town as a part of “ Jignasa” : A student research programme initiated by Commissioner of Collegiate Education, Hyderabad TS. This project was selected for State level Presentation at City government College (Autonomous) Hyderabad. The present study was undertaken in 4 main areas of Hanamkonda town. The study areas are Waddepally, Teachers colony, Gopalpur and Excise colony. A sample of 70 respondents was chosen for the study. Among the sample 60 respondents Millet consumers and the remaining 10 respondents were the sellers of millets from selected area. The selection of sample was purposive. 20 Students of BA HEP II Telugu medium participated in the collection of Primary Data.

Dr. B. Nainadevi Assistant Professor of Economics along with students collecting the data

## QuestionnaireI

(For Millet users)

### “Changing Food Habits: Boon for Millets Sales – A study in Hanamkonda Town”

1. Name of the Respondent ARYAN.M
2. Locality Teacher's colony
3. Age 45
4. Sex Male
7. Educational Level of the Respondent  
a) No education b) SSC c) Intermediate  d) Graduation e) Post Graduation
8. Occupation of the respondent Business  
a) Government Employee b) Private employee c)  Business Person d) Home Maker  
e) Student
9. Do you consume Millets?  Yes/ No
10. Who in the family consume millets on regular basis? Tick the appropriate one  
a) 0-18 age group b) 18-36 age group c) 36-54 age group d)  54 and above age e) all
10. How long have you consumed millets? Tick the relevant one  
a) Since last year b)  since 1 to 5 years c) since 5 to 10 years d) more than 10 years
11. Which type of millet is being consumed by you on regular basis? Tick the appropriate one  
 a) Sorghum (Jonnalu) b) Pearl Millet (Sajjalu) c) Finger Millet ( Ragulu)  
d) Little Millet (Samalu) e) Kodo Millet (Arikelu) f) Foxtail Millet (Korrulu)  
g) Barnyard Millet (udalu) h) Proso Millet (Varigelu)
12. What type of dish do you prepare with millets on regular basis?  
a) Roti b) Idly c) Dosa d) Porridge (Java) e)  Upma (Gataka/ Sankati)
13. What is the desired Frequency of consumption of millets, tick the appropriate one

a) Daily once   b) Daily twice   c) Daily thrice   d) Weekly 3 to 4 times.

14. What is the average quantity of millets purchased per month by you? Tick

a) 5 to 7 kilograms   b) 8 to 10 kilograms   c) 11 to 13 kilograms

15. What is the source of procurement of millets? Tick the relevant

a) Super market   b) Kirana Stores   c) Organic stores   d) others

16. Do you think that the millets are available at reasonable prices?   Yes/No

17. Are you aware of the benefits of consuming millets?    Yes/No

18. Why do you consume millets? Tick the relevant one

a) Lower high blood pressure and blood sugar levels

b) Has more fiber content

c) Gluten free and non-allergic

d) Rich in minerals and vitamins

e) Detoxifies the body

19. How did you come to know the benefits of Millets? Tick the relevant one

a) TV shows (Electronic media)

b) News papers

c) Whatsapp/ face book (Social Media)

d) Display of the shops

e) Yoga/wellness centers

20. Do you think that the government should provide price subsidies for millets to boost their sales?

Yes/No

## **Student's Study Project - Department of Economics 2019-20**

### **Perception towards Digital payments: A study in Warangal Town**

<https://drive.google.com/file/d/1CxJGsglTjgkigPQH7XOVYYOLRnt5NstY/view?usp=sharing>

The department of Economics conducted a survey on "Perception towards digital payments: A study in Warangal district. Total 30 students of HEP II English medium (2019-20) participated in the survey. 200 respondents from 10 places of Warangal town were taken for the study project. The purpose of the study is to know the attitudes of people towards digital payments. The present study uses primary and secondary data. The primary data was collected by using semi structured questionnaire. The purposive sampling technique was used.

B. Kaveri, and Ch. Bharath Kumar BA HEP II year, collecting data on 'Perception towards Digital Payments'

**NANDI HILLS**  
**HANAMKONDA**  
**2016-17**

## **A Visit to the Regional Science Centre**

*B.Mounika B.Com (Comp.Applications) First Year  
II Semester*

The Regional Science Centre (RSC) is fostering spirit of science among the youth. It was established in Warangal district head quarters to serve as a means of infotainment to the students from across the state. Telangana State Council of Science and Technology (TSCST) launched this project with a view to evolve methods of promoting applied science and technological research among the youth. Sitting on top of a hillock at Hunter Road in Hanamkonda, opposite to the Kakatiya Zoo Park, the state of the art building dressed with a dual tone of orange and grey does not fail to grab the attention of the passers-by on the road. When we enter the premises, the serene atmosphere develops curiosity and inquisitiveness in us towards science and technology. The purpose of establishing this centre is to inculcate scientific temper in the minds of students, teachers, academicians and even general public.

There is a lot of response from schools and colleges from all over the state. The science centre is experiencing a daily traffic of about 400 students from across the state. Students from other districts have become enthusiastic to visit this science centre and gain practical knowledge of science which they study in their text books. The science centre is loaded with state of the art equipment inside and outside the 15 acre complex. There are 69 exhibits in a range of galleries across Physical science, Biological science, on Biodiversity, climate change and other contemporary science topics which help students understand various concepts of science better. The 'magic' tap, which pours out water without any pipe connection, the Leon Foucault pendulum which proves that the earth is revolving, head on a platter which explains the concept of optical illusion and other such exhibits provide a lot of information to the students in an enjoyable environment. Other exhibits like the musical corridor, infinite train, sympathetic swing, parabolic reflectors and pinhole camera are thoroughly enjoyed by the students at the same time inculcating scientific outlook among them.

Being the only science centre in the state, it serves to motivate and inspire students to take science to every nook and corners of the society. The scientific exhibits drawn from the National Council of Science Museums, Kolkata are a major attraction here.

## **FIELD TRIPS 2016-17**

**3. VISIT TO**

**CENTENARY BAPTIST CHURCH**

**PLACES OF WORSHIP  
MY FIELD TRIP TO A CHURCH**

**M Rama Rao  
B.A I Year (HEP)**

India is a secular country. People of different religions and beliefs live here. Though the country is big it has unity in diversity. Majority of Indians are Hindus. Muslims and Christians form the minority. We have different places of worship. Hindus go to temple, Muslims go to mosque, and Christians go to church. They visit these places on the respective days meant for worship.

As a student of B.A I year, I went on field trip to a nearby church. It is called 'Centenary Baptist Church' because it more than 100 years old. It is situated in the heart of Warangal city. It has a huge structure and has a great history. It could accommodate as many as 2000 worshippers. In the same premises there is a small church which is 145 years old. It could accommodate nearly 500 worshippers. There I have met a person and came to know that many Christians attend this church on Sundays and on other holy occasions to worship Jesus Christ. The worship takes place in two languages-Telugu & English. Besides this, the church is kept open throughout the week for everyone to visit and pray. There is a prayer tower for special prayers. People come over there to offer prayers in times of joy and sorrow to have personal time with God for peace and solace. There is a beautiful garden around the church. The atmosphere is calm and comfortable for worship. The church has a bell tower which is used on Sundays. The bell is rung on other days to indicate an important event or incident. A person called 'Sexton' takes care of gardening and bell tower.

The church is maintained by a committee. Worship services are conducted by the religious head called the 'Pastor'. He gives Sermons on Sundays and on other important days of Worship. There is a tall cross on the top of the church. This is a symbol of sacrifice. This represents the sacrifice of Jesus to save this world from sin. Christians observe 'Good Friday' in memory of this. This is followed by 'Easter Sunday' the third day which according to Christians Jesus conquered death and rose again. 'Holy Communion' is conducted in memory of Christ on every first Sunday of every month. On this day 'Eucharist' or 'Holy Communion' is served to those Christians who receive 'Baptism'. 'Baptism' means 'Death by Water'. In the church there is a special bath tub meant for this purpose. The belief of the Christians is that once you dip in this water, your old sinful life must be changed into a new sinless life. Christians do not believe in Physical Re-birth, but they believe in Spiritual Re-birth only.

There is a small library in the premises of the church, where you could find books on Christianity and other related information. The church also does social service in the form of a school and a hospital. Members contribute for the welfare of the church and its activities. My field trip to this place though it was a short visit gave me such valuable information which I could share with you. I enjoyed this field trip.

**KAKATIYA GOVT. COLLEGE  
DEPARTMENT OF ENGLISH  
FIELD TRIPS 2016-17  
2. VISIT TO DISTRICT LIBRARY,  
Hanamkonda**

## LIBRARY

Place for myriad valuable books  
Site for sensible academic looks  
Dystopia for unfocussed crooks  
Destination for literary dukes

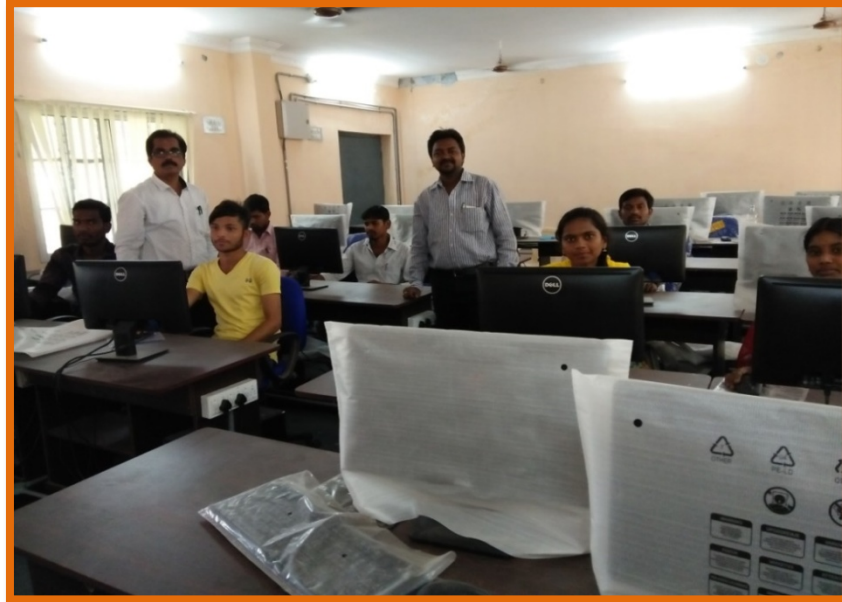

Always open in sun and shower  
Readers enter for intellectual power  
Accommodate under the cool bower  
Find space at the cell phone tower

This is not every body's cup of tea  
Though one may use it without any fee  
Haven for all who work like a busy bee  
Round the clock he, she, me and thee

Second home for voracious learners  
Centre of inspiration for book churners  
Knowledge thesaurus for energy burners  
Excellent abode for competitive stunners

Make it a frequent pleasant place to visit  
With sprouted intriguing thoughts to exit  
Transforms you a citizen without deficit  
Enable with thoughts ennobling to exist.

## **Field Trip by the Department of English 2019-20**

**The Department of English undertook a field trip to NIT, the prestigious Institute in Telangana. The students visited the English Language Lab. They learnt how technology is used to improve the language skills. They spent time in the lab, listening to the expert.**

## **Field Trip by the Department of English 2020-21**

**The Department of English made a trip to Fort Warangal. The students have learnt about the wonderful Sculpture of Kakatiyarulers. They made a note of the structures and try to attempt write-ups on the beautiful constructions in Fort Warangal. The field trips aims at bringing out the inherent creative talents of the students.**

## Visit To the ELL at NIT: Importance and Uses

Language Lab software is a classroom based solution which will be installed on the computer in classroom and the content can be accessible in the respective classroom system. English Language becomes the default option for communication as it is spoken and understood across the global. Hence making it a good companion for travel enthusiasts. While proficient English-speaking skills appeals your resume and it can boost hiring potential. A recent survey by LinkedIn stated that CEOs and HR Directors prefer English speaking employees over other languages.

English Language is not the first language for many Indians and it's a language ought to be learned. It is only taught in few English medium schools across the country; hence, a huge chunk of population never got the opportunity to learn English language.

The Department of English at NIT Warangal has well-furnished English lab. It provides the students a scope to improve their communication skills. The students of Kaktiya Government College under the guidance of the Department of English visited the Lab at NIT and learnt the technicalities of language learning through Lab.

## **DEPARTMENT OF ENGLISH FIELD TRIP TO FORT WARANGAL A NOTE ON THE FORT**

Warangal is recognized as one of the best heritage cities of India. It is 145 km away from the state capital Hyderabad. It is also the second largest city in the state of Telangana. The city's name is derived from the Telugu word Orugallu – 'Oru' which means one and the word 'gallu' meaning stone. The city was the capital of the great Kakatiya rulers who reigned between 12th and 14th centuries.

According to the history of Warangal, the Prola Raja of great Kakatiya dynasty built the beautiful city in 12th century. The Kakatiyas, who ruled the place for more than 200 years, have left the succeeding generations, many grand monuments and architectural wonders like the famous Warangal fort, Swayambhu Temple and many other amazing ancient structures. The Warangal Fort, which is the main attraction of the city is spread over a radius of 19 kilometers between Warangal and Hanamkonda. The fort was constructed in the 13th century in the reign of the Kakateya King Ganapati Deva. The Warangal fort is most famous for its graceful and finitely carved arches and pillars. This fort has four large stone gateways.

Warangal fort is located at a distance of 3-4 km from Warangal city, which is well connected by road and rail from Hyderabad, approx.140 km away.

## NATIONAL INSTITUTE OF TECHNOLOGY

Department of Computer Science Students are visited the Department of Computer Science, National Institute of Technology, Warangal.

The Department of Computer Science & Engineering was established in the year 1991. The department offers high quality undergraduate, postgraduate and doctoral programs. The B. Tech (Computer Science and Engineering) program was started in the year 1983 with an intake of 20 students. The intake was subsequently increased to 120 in 2008. M. Tech (Computer Science and Engineering) program was started in 1987 with an intake of 18 and subsequently increased to 20 in 2008. M. Tech (Information Security) was introduced in the year 2008 Under ISEAP sanctioned by Ministry of Communication and Information Technology (MCIT), DOE, GOI, New Delhi with intake of 20. Later, it was renamed as Computer Science and Information Security. The Master of Computer Applications (MCA) program was started in 1986 with an intake of 30 and increased to 46 from 2008. B.Tech, M.Tech (CSE) and M.Tech (CSIS) programs were accredited in 2014 by NBA as per Washington Accord.

The department has distinguished and committed faculty members with PhD from reputed institutes. It has close rapport with MICROSOFT, TCS, INFOSYS, ORACLE, TRDDC-Pune, SUN Microsystems, EMC<sup>2</sup>, ACCENTURE, C-DAC, MOTOROLA, HONEYWELL, NOVELL, PHILIPS, SAMSUNG, and IBM-Bangalore. The department has MOUs with TCS, IBM, C-DAC and INFOSYS, for training students and faculty on latest cutting edge technologies and also to pursue Research and Development activities. The Department has been selected as a Remote Center under Information Security Awareness Project (ISEAP) Phase II, MCIT Dept of IT. Along with department of ECE, it is associated in E&ICT Academy project sanctioned by Department of Electronics and Information Technology, Govt of India for Rs.25 crores to train faculty from Engineering and Polytechnic Streams across Telangana, Andhra Pradesh, Karnataka States and Pudicherry, Andaman & Nicobar Islands and Lakshadweep UTs.

We are much thankful to the department of Computer Science and Computer Centre Incharge for allowing the students to get the feel of latest technologies used NIT in exploring various problems.
