Best practice 16/02/21  
Sanitizer preparation.

Since most of the hand sanitizers available in the market are not of good quality. So we have thought of showing sanitizer preparation to the students according to WHO guidelines

Key ingredients for sanitizer preparation

- 1) Isopropyl alcohol 70%
- 2)  $H_2O$  5%
- 3) Glycerine 5%
- 4) water 20%
