Benefit of this programme

L-S-R-W is the **four skills of language learning**, a set of four capabilities that allow an individual to comprehend and produce spoken language for proper and effective interpersonal communication. These skills are **Listening, Speaking, Reading, and Writing**. In the context of first-language acquisition, the four skills are most often acquired in the order of listening first, then speaking, then possibly reading and writing.

Accordingly, English is the dominant business language and it has become almost a necessity for people to speak English if they are to enter a global workforce or Higher education. Mainly, in present market **placement patterns** are changed with the latest trends by including writing **assessments like Image skill and Email writing**. To crack the latest placement students must be perfect in reading and writing assessments.

Currently, Students who are very good in technical are lagging in communication. As communication plays very important role in workforce and higher education, students must be perfect in communication.

This LSRW skills platform provides a complete assistance for the students to get perfect in four skills of Language learning.
