## DISCRIPTION ON AWARENESS PROGRAMME ON TB:

Tuberculosis remains a major public health problem in India. Over 2 million people die of tuberculosis world wide each year and 4 lakh of them die in India alone. Tuberculosis represents 3.75 of India disease burden, 11 times that of malaria and is leading cause of death in the 15-45 year group. The aim of the programme is to assess the effectiveness of tuberculosis awareness programme on knowledge levels of BSC students 101 were involved in programme.
