

Department of Physics

Following Skill Enhancement Courses (SEC) and Certificate courses offered by department of Physics will be useful for **Employability/Skill development**.

Academic year 2018-19

1. Renewable energy and energy harvesting
2. Weather forecasting
3. Electric circuits network skills
4. Basic instrumentation skills

Academic year 2019-20

1. Renewable energy and energy harvesting
2. Weather forecasting
3. Electric circuits network skills
4. Basic instrumentation skills
5. Radiation safety

Academic year 2020-21

1. Renewable energy and energy harvesting
2. Basic instrumentation skills
3. Electric circuits network skills
4. Experimental methods and error analysis
5. Biomedical instrumentation

Academic year 2021-22

1. Renewable energy and energy harvesting

2. Basic instrumentation skills

3. Electric circuits network skills

4. Biomedical instrumentation

5. Digital electronics

Certificate course

1. Household electrical wiring
