

BEST PRACTICES BY INSTITUTE

Reformed Teaching learning process.

In education teachers facilitate student learning which helps students gain skills, knowledge and thinking ability. Different ways to teach are often referred to as pedagogy. This involves assessing the educational levels of student on particular skills.

(a) Student Centric learning

As we found a few difficulties in traditional method of chalk and talk teaching, we have set up the classroom as student centric namely Reformed Teaching Learning (RTL) process.

(b) Activity Based Learning.

As this new process is connected with activity based learning such as role play, students get more space to interact with teachers & classmates. Further PPT'S, video, OMR'S and short seminars are being used in the RTL method. that results in easy understanding of the concept by students.

(c) Project Based Learning -

The RTL method provides a detailed learning to students and also reduces them initiate a project the basis of what they have learnt in the classroom.

① Technical Quiz-

To get in - depth knowledge in subjects, Technical Quiz is conducted in each subject with helps students to have specified learning.

② Mentoring

The teachers meet students periodically collect the pros and cons of this method and counsel them to remove the difficulties in their academic performance; this method is called mentoring system; Students personal issues are also discussed and a proper guidance and support is provided to ensure the comfort of students in the campus.

BEST PRACTICES BY INSTITUTION.

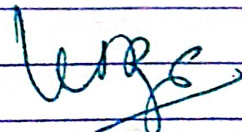

- 1) Facilitating deep learning approaches
- 2) Inquiry research based education.
- 3) formative assessment.
- 4) Discussion on ideas and perceptions of best practice.
- 5) Conclusions and acknowledgements.

Theme : Approaches to Curriculum Design.

- Shaped by our values and beliefs.
- Can be discipline, performance.
- All these have great impact on student learning modes and experience.
