These letters suggest that it is a fairly common practice to use the same name for the same person in different letters. This is not surprising, as the letters are often written by the same person and are intended to be read by the same person. The letters are also written in a very informal style, which is typical of letters written by a person to a friend or family member.

Awareness on Gender equality

NSS Unit II, III & WEC

26.08.2019

Being a co education institute it is our most important duty to aware students about Gender Equality. UNICEF says gender equality "means that women and men", and "girls and boys", enjoy the same rights, resources, opportunities and protections. It does not require that girls and boys, or women and men, be the same, or that they be treated exactly alike.

A generic symbol for gender equality

BLOOD GROUPING CAMP

6/02/2021 to 12/02/2021

IMPORTANCE OF BLOOD GROUPING

The Department of Microbiology has organized Blood Group camp to make blood available to needy people. We conducted a blood grouping camp @ Rupees 10/- on 6/02/2021 to 12/02/2021 and tested blood groups of 200 members including staff and students and documented. This may be very helpful whenever essential.

BLOOD GROUP HISTORY

Since 1900, we have known about one of the most important blood groups, the ABO blood system, discovered by Physician Karl Landsteiner. He later discovered the Rh blood group system in 1930 and with it the RhD antigen. The blood groups are defined by the presence or absence of a specific antigen on the surface of a red blood cell.

BLOOD GROUPS

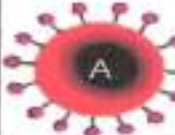

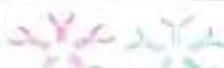

Along with red blood cells, white blood cells and platelets, blood also contains antigens, part of the body's immune system. Antigens are proteins or sugars which cover the surface of the red blood cells. Some of these antigens define which blood group you belong to.

There are four ABO blood groups: A, B, AB and O which all refer to the presence of different antigens on the red blood cells. Blood group A means you have the A antigen, while blood group B means you have the B antigen. Blood group AB has both the A and B antigens present on the surface, but blood group O has neither antigen present.

People that have the D antigen on their red blood cells are RhD positive, while those people that don't have the D antigen are RhD negative. The positive and negative suffix on blood types, such as A+ and B- refers to your RhD type, also known as your Rhesus D type

CLEANLINESS CAMPAIGN –NCC CADETS CLEAN COLLEGE CAMPUS
10-02-2021
NCC

NCC cadets took to cleaning Dr.BRR Govt. College on Wednesday. NCC cadets took part in the activity and cleaned the premises of the degree college. Talking about the activity, cadet M.Rukmini said "I am glad to be a part of this drive. People throw garbage in the open despite the availability of dustbins on the spot; I just hope they are sensitized about the issue".

Addressing the NCC cadets on the issue, Dr.Appiya Chinnamma Principal of Dr.BRR Govt. Degree college , said, by cleaning spots like colleges, temples and mosques, a spirit of social service and love for country in cadets. Working for the society is equivalent to sacrificing for the country.

Online Survey on Usage of E-Commerce tools

Department of Commerce conducted online survey on usage of E-Commerce tools. What are the predictions of users when they for E-commerce tools. A week time is give to the respondents and later a report is prepared on the basis of responses.

E-COMMERCE SURVEY REPORT

INTRODUCTION:

E-Commerce is the conduct of business on the Internet, not only buying and selling but also servicing customers and collaborating with business partners. One of the first to use the term was IBM when in October 1997 it launched a thematic campaign built around the term. Today, major corporations are rethinking their businesses in terms of the Internet and its new culture and capabilities. Exploiting the convenience, availability and worldwide reach of the Internet, nowadays many companies are using the Web to buy parts and supplies from other companies to collaborate on sales, promotions and to do joint research.

Electronic Commerce is growing aspect of the business community. E-Commerce refers to a wide range of online business activities for products and services. One of the major reason that this industry is booming because purchasing over the Internet has been made very easy compared to traditional way of shopping's-Commerce improves the brand image of the company. It reduces paper work. It supports "pull" type supply. It provides user more options and quick delivery of products. A customer can put review comments about a product and can see what others are buying or seek the review comments. Customers need not travel to shopped-Commerce help government to deliver public services too.

But every innovation has pros and cons. One of the main limitation is people are hesitant to provide their personal and financial details. The privacy of customer is comprised in E-Commerce. A lot of money needs to be invested to build up the technical infrastructure. E-Commerce website needs to be able to change and grow in order to meet demands and requirements customers.

A need is felt by the Department of Commerce Dr.BRR Government College, Jadcherla to conduct a survey as to know the views of customers on E-Commerce transactions. In this Pandemic situation the services of E-Commerce are highly appreciable where they are meeting the needs of society including medicines.

https://docs.google.com/forms/d/e/1FAIpQLSf2su0CjSr1iKB42tFajyZFjEh-th3_cT7ZT_QANw5JOHIOMg/viewform?usp=pp_url

The total responses for the survey are 100. It consists of 10 questions.

Each question is analyzed separately.

The respondents have given their suggestions for the improvement of the E-commerce services.

Out of total respondents 29 said that they are satisfied with the services. 13 ranked the services as good. 2 respondent's felt that the delivery is slow. 2 respondents suggested free delivery that is no delivery charges should be levied. 1 respondent said that the app should be local language so that it can generate more returns. 1 respondent asked for creating awareness among consumers through trainings. Cyber crimes should be reduced. Multiple contact option should be given in case of dissatisfaction. Security issues should be taken into account.

Overall if the technology used properly gives positive results otherwise it is dangerous to the existence of human beings.

Date: 23/04/2022

Department of Mathematics taken initiated an extension activity at Gangapur village on 23/04/2022. Simple arithmetic calculations much needed in day to day life.

Ex: We went to the merchant and vendors how much they should get back money explained in simple digits transactions & their emoluments of daily wage. Incomes labourers & they worked for 30 days @ 600 how much they get end of the month. Interacted with villagers they happily learn to the things soon & the old people even though they know they are enthusiastic about to learn easy calculations.

Collection and Reuse of Plastic Bottles

28-04-22

DEPARTMENT OF BOTANY & ECOCLUB

Plastic is incredibly resilient, flexible, and cheap to create. Sadly, it has terrible negative effects on the ecosystem. In fact, we use so much plastic that every year, 12 million metric tons of it are dumped into the ocean, which is terrible. Once there, the plastic waste degrades into tiny plastic particles called micro plastics, which end up in the eggs of birds and fish and eventually build up in the marine food chain.

In view of this, The Department of Botany with the help of students collected the used plastic bottles and reused them for the growth of plants by filling the soil.

Educating the Farmers on the Importance of Organic Farming

28-4-2022

DEPARTMENT OF BOTANY & ECOCLUB

Organic farming supports environmental health by lowering the amount of pollution, because there are fewer residues in the product, there are fewer risks to human and animal health. It aids in sustaining agricultural production at a certain level. It enhances soil health and lowers the cost of agricultural output.

As a result, the Department of Botany first taught the students the value of organic farming, and the students in turn educated the farmers by visiting the fields in Koduparthi Village.

National Online quiz on the Occasion of World Biodiversity Day

18.05.2022

DEPARTMENT OF BOTANY & ECOCLUB

Human's insatiable appetites lead to overexploitation of natural resources, which is the primary driver of biodiversity loss. This only earth is insufficient to meet the current demands of humans, and a half-earth is still required.

As a result, The Department of Botany in association with Eco Club, Dr. Burgula Ramakrishna Rao Government Degree College hosted a National Level Quiz on Biodiversity on the Occasion of International Biodiversity Day, 22 May 2022 to raise awareness among the participants and released on 18-05-2022. The Quiz link is circulated through Whatsapp groups. Those who secured 40% of the marks received an e-certificate. The test was launched on May 18, 2022, A total of 347 participants from different states of India along with this college participated in this quiz.

Department of Botany & Eco Club

On the occasion of World Environment Day, June 5, 2022, the Department of Botany, and the Eco Club collaborated to host an awareness programme on plastic with the theme "Let us minimize our usage of plastics and conserve the environment. In this event, the hazards of plastic usage were explained and students were trained on how to make paper bags, which were then given out to the students. Students are instructed to prepare paper bags for carrying daily necessities rather than plastic bags. The self-made paper bags were displayed by students who had already been instructed in the manufacturing of plastic bags.
