

DEPARTMENT OF MATHEMATICS

ABOUT THE DEPARTMENT:

Mathematics basically provides an effective way of building mental discipline, creative and divergent thinking with logical analysis. Excellency in Mathematics plays a pivotal role in research and technology. It has applications in science, engineering, economics, IT, architecture and many other fields. Further, mathematical concepts are a prerequisite for both higher education and career. Infact, mathematics is a part of our human cultural heritage and we have a responsibility to develop that heritage. The Department of Mathematics was established in 1971. Ever since its establishment, over the years, hundreds of students are going out with flying colors, achieving their goals and making their dreams come true in higher education and career with the strong foundation laid in the college at UG level.

VISION: *The vision of the department of mathematics is*

- * To impart qualitative education to all the students who are aspiring for mathematics courses at UG level.*
- * To reach the expectations and aspirations of mathematics students in curriculum aspects.*
- * To lay a strong foundation to meet the growing requirements of higher educational needs of socially and economically backward women.*

MISSION

The philosophy and mission of the Department of Mathematics is

- * To make timeless efforts to reach all categories of bright and weak students.*
- * To pave the way for a great future for every student.*
- * To guide the students to secure distinctions and first divisions.*
- * To empower the student with appropriate skills to face the emerging trends of a competitive job market.*
- * To strive for holistic development with special focus to enrich knowledge, develop creativity and enhance mathematical skills.*
