GREEN CAMPUS POLICY

The Green Campus initiatives help the institution to redefine and develop new paradigms which create tangible solutions to environmental, social and economic issues. The Government Degree College for Women, Begumpet has initiated the Green Campus Policy to protect the environment. It has constituted a committee called the Green Audit Committee to formulate and implement various initiatives planned by the institution for sustainable development.

Objectives:

The policy aims to suggest and execute a set of measures to make the college campus clean, sustainable and energy efficient. The objectives of this policy are as follows:

1. To increase the green cover by planting more plants.
2. To adopt systematic segregation of waste.
3. To dispose e- waste as per the instructions and approval of CCETS.
4. To ban the use of plastic.
5. To encourage paperless communication through e-office.
6. To recycle/ reuse paper.
7. To display instructions on Waste Management at various locations in the campus.
8. To encourage Water Management through rainwater harvesting and use of recycled water for watering plants.
9. To minimize pollution by restricting the entry of vehicles and promote the use of public transport and carpooling.
10. Use energy efficient lamps/sensor based lamps in corridors, toilets etc.
11. Use of energy efficient equipment in laboratories and classrooms.
12. To conduct Green Audit annually.
13. To create awareness among the students on Climate Change and Environmental Protection by organizing seminars, debates etc.
