### **Institutional Core Values**

N.M. Government Degree College was established in 1968, and has been serving generations of people from its inception. The Institution makes a conscious effort towards providing value based education to the under privileged sections of the society. The core values of the Institution are as follows:

**Inculcating a Value System among the Students:** Education without proper values leads to harmful tendencies in the society; hence the Institution focuses on incorporating the right values among the students. Universal values of Love, Non Violence, Peace, Compassion, Tolerance, Sincerity, Commitment and Dedication are inculcated into the students through various curricular and co-curricular activities.

**Fostering Global Competencies among the Students:** In the present day of globalization the employers seek skills regarding Information and Communication Technology among the students. Hence the Institution makes a conscious effort to develop the required employability skills among the students.

**To motivate the students towards Higher Education:** The Institution takes special focus on motivating the students to pursue higher educational courses and to further pursue their career.

**Making the students as Responsible Citizens of the Country:** The Institution nurtures the National Integrity among the students and creates awareness in them regarding fundamental duties and responsibilities towards their mother land, and to lead a constructive life by respecting every other citizen. Various programs are conducted to give a proper perspective of the socio cultural scenario of the country.

**To Nurture Service Motto among Students:** The ideology of service towards the community and society is demonstrated to the students through various extension activities such as NSS and NCC.

**To Develop Sensitivity towards Environment Sustainability:** The curricular and Extra-curricular activities have a special focus on developing sensitivity in the students regarding the environmental sustainability and responsibility.
