

## **Institutional Distinctiveness**

### *7.3.1 The performance of the institution in one area distinctive to its vision, priority and thrust*

The Institution makes a constant effort to provide value based education to the students in an educationally backward area. Though just seventy kilometers away from the state capital Hyderabad, the people in the village Jogipet are in striking contrast with the technological advancement and progress of the Metropolitan city. In these circumstances the institution has been serving the community for the past five decades as a resource centre of knowledge. In the long period of fifty years, the institution has nurtured and produced many eminent personalities ranging from scientists to civil servants, from Educationists to poets. The Alumni includes Senior IAS officers, Joint Directors in Education department, Lecturers, Professors and NRIs also. It's a feather in the cap of the Institution that it could guide so many students from the position of first generation literates to that of successful professionals in various fields.

The Institution caters to the educational needs of the surrounding feedback villages within a radius of fifty kilometers. Most of the parents are uneducated or little educated, who do not have a proper understanding of the significance of education in nurturing human personality. This lack of awareness in the parents certainly leads to undesirable tendencies in the students, which results in irregular attendance to the classes, lack of seriousness towards studies, lower performance levels in the examinations, drop out tendencies etc. so, greater is the responsibility on the Institution to curb these negative traits and to motivate the students towards moulding a successful career. In these challenging circumstances, the Institution succeeded in fruitful nurturing of many students into successful professionals.

The Institution primarily focuses on inculcating universal values of love, peace, tolerance and compassion into the minds of the students. Celebration of National festivals with enthusiasm and fervor help to inculcate the values of patriotism, National Integration in the young minds of the students. Celebration of Birth and Death Anniversaries of eminent leaders of India help in creating an ideal atmosphere to emulate their ideal personality traits. Activities conducted by the Institution through NCC, NSS, Red Ribbon Club etc help the students to understand the service motto towards the community and enable them to be responsible citizens of the country. Swacha Bharath and Haritha Haaram programs conducted by the Institution help the students to be more sensible and responsible in creating and sustaining a clean, green and eco friendly campus. Hence, through all these activities the Institution makes a conscious effort in nurturing the students into responsible citizens of the country.
