WORK SHOP

Indian Tradition - Green Leaf Plate
(Making & Awareness on Eco Friendly Living)

Introduction & Need of Workshop:-

Using self made traditional green leaf plate is an eco friendly customary practice, which is very much visible in our festivals & many rituals. It is our tradition to make offerings to the deities by stitching a green leaf plate then and there, and offering it to the gods on marriage or death or birth.

These days plastic usage is increasing in an alarming speed. we will held responsible for the annihilation of our beautiful mother Earth's peaceful environment. Day by day forgetting our traditional practices and throwing ourselves to the end. Our next generation may not aware of this kind of small green practices like making up traditional green leafy plates which are very healthy and eco friendly.

So to give awareness on all the above said issues, Department of Telugu and women empowerment cell of Dr BR Government Degree College jadcherla organised a work shop on making of traditional green leaf plates.

Organisers:-

1. Department of Telugu
2. Women Empowerment Cell
